Background
on the vessel known as
:Krzysztof: Sagajllo

The Office of Private Trustee has authorized the vessel known as :Krzysztof: Sagajllo, currently occupying a habitation located in St Catharines, ONTARIO, CANADA, to author this document at the request of Katrina Jean Deacon (Trina) who is a friend of the vessel and occupying a habitation somewhere in Wales, UNITED KINGDOM.

At 4:42am (EST local time) on the 25th of October 2024 Trina messaged :Krzysztof: Sagajllo on his private Telegram channel asking him to write an affidavit with regards to Simon Goldberg's defamation claim against Trina. This is his response.

Personal Background (written by :Krzysztof: Sagajllo)

I have been researching this world and Life since around the 14th of August 1984. This date is somewhat precise because around this date I attended a personal development course called Self-Transformation Seminars, an Australian organization. It was during this personal development seminar that I had a personal experience that caused me to question my reality and the world I lived in and I endeavoured to research and find out what had occurred with me.

To that end I embarked on a personal journey of research and discovery that continues to this day having accumulated more than 40,000 (forty thousand) hours of research through reading, physically visiting the British Library (as there was no internet in those days), spending time in solitude in the Outer Hebrides and the west coast of Scotland and travelling extensively – some parts of Europe, a couple of countries in the far east, but mostly in America and, later, Canada.

In January of 1998 I became a member of the Church of Scientology, having received a service called Book One auditing (which took 13 hours), and discovered that a state of awareness that I had achieved in Scotland was achievable stably in this Church (called 'Release' – an unstable state of Clear, unstable because it was transient; in other words this state didn't last long). The state of awareness I refer to is what L Ron Hubbard called the state of Clear.

In February and March of 1998 I took 6 weeks of basic courses in Toronto, Canada, as my future wife was living there and she was the one who had helped me in December 1997 through a rough emotional episode in my life. I also received more Book One auditing while there.

After going back to England to deal with some legal matters I moved back to Toronto in August of 1998 and married my future wife in November of that year.

While a member of the Church of Scientology I undertook Scientology studies and began to learn about the Mind and the potential that each of us has and the mechanisms by which we limit ourselves. The first major course I did was called 'The Student Hat', which was a course about how to study correctly. This course took approximately two years studying a few hours per week. Part of my subsequent studies entailed learning about the anti-social personality, the social personality, the criminal mind and the Emotional Tone Scale in a course called 'PTS/SP Course – How to Confront and Shatter Suppression'. [Note: PTS stands for **P**otential **T**rouble **S**ource and SP stands for **S**uppressive **P**erson.]

'The Emotional Tone Scale' is a visual representation of the information in a book called 'The Science of Survival' which includes a chart called 'the Hubbard Chart of Human Evaluation'.

Within the above PTS/SP course it codifies the attributes of an anti-social personality (as well as a social personality) and the attributes of a criminal mind.

The Emotional Tone Scale is attached as Exhibit 1, the attributes of a criminal mind as Exhibit 2, the attributes of an anti-social personality as well as a social personality as Exhibit 3 and the Hubbard Chart of Human Evaluation as Exhibit 4. The video of the Zoom meeting is either embedded in this document as a digital video file in the page after the end of the affidavit but before the exhibits or attached to the inner last page of this document if in physical DVD form. Other exhibits will be attached and referenced in this affidavit. A note about Exhibit 12 - SUPPRESSIVE PERSONS, MAIN CHARACTERISTICS OF – the data contained herein can be applied to any organization. Just substitute the word Scientology for your organization.

An example of using the information in the above PTS/SP course is now given:

On the 2nd May 2004 I was selling hand painted oils outside Starbucks in Elk Grove, California, within their patio area. Two young guys in their twenties browsed through the collection of paintings and eventually came over to my table with 7 paintings (three large, two medium and two small). They didn't have the money to pay for them and asked if I could do a credit deal for them. They were sitting in front of me at the table and using the knowledge I had gained from the above course (the PTS/SP Course) I looked at them for about 20 seconds and knew that the chap across from me to my left wouldn't be good for it and the chap across from me on my right, a guy named Daniel, would be. I didn't ask for any form of ID. I then proceeded to draw up a contract on a sheet of paper and had both of them sign it. I then paid for their 7 paintings out of my own wallet which totalled over $750.

Two weeks later Daniel called me and said his friend had backed out of the deal, which I had predicted to myself would happen, and that he would be paying for the paintings for the duration of the contract. He did so within 6 months of having signed the contract, which I also predicted. There were hiccups here and there but I just let Daniel sort out any problems he had without hassling him about any of the things that cropped up (two bounced checks and a missed payment about which he explained and handled),

holding to my original estimation of him and the situation and not allowing any emotions due to these hiccups to cloud my initial judgment.

I have subsequently utilized this knowledge in my everyday life since that point and it has become an integral part of my understanding of people and how I judge them and discern where they are coming from and their intent behind their actions.

Prior to having this knowledge I was not able to understand or discern where people were coming from and was taken advantage of on one or two occasions by female ‘friends’; for example being invited to a ‘pool party’ and then waiting for two hours to meet up with them at a pre-agreed location before going to this alleged party (they never turned up).

In January 2007 I discovered that the Church of Scientology is a very corrupt church and subsequently left it.

Between 2007 and the current time (2024) I have gained other abilities in discernment and empathy which has allowed me to hone my abilities to figure out where people are coming from and what their intentions are towards myself and others. I can also do this at a distance without personally knowing the people.

This means that it is no longer easy for me to be around people who have little to no awareness of what is going on in the world, who talk about irrelevant (to my mind) things (for example the latest TV show), and people who gossip.

It also means that I call people on things when I can sense or discern that their intent is different from what they say.

Which brings me to the point of this document…..

THE AFFIDAVIT

Affidavit
of the vessel known as
:Krzysztof: Sagajllo

The following affidavit is by my own hand without duress.

1. I was introduced to EtP by a chap called Woody (I do not clearly recall his real first name – I think it was Keith) as at the time he was also a member of a small private Telegram group that I belonged to that my nephew had set up called Chancery Originals which was about exploring alternative ways of living privately.
2. On the 5th of April 2022 I became a member of Empower the People (EtP for short) a Private Member's Association (PMA).
3. I did not partake of any services that EtP provided but I did attend two Zoom meetings shortly after joining EtP where in the first meeting EtP 'trustees' explained the services they had on offer.
4. One of these services was explained in a 'break-out meeting' on Trusts which Katrina Jean Deacon (Trina) gave. At the time she gave this meeting she was a trustee of EtP. I was impressed by her knowledge and demeanour.
5. Another meeting was with Matt Fanthom(?), the founder of MFS Solutions, who did credit card discharges. I also had a private Zoom call with him because I wanted to discuss doing his service in Canada, as they did not have that set up here yet.
6. On the 3rd of August 2022 EtP had a Special General Meeting via Zoom which was called by Simone Marshall (Simone), the founder of EtP, purportedly in response to something that was going on internally within EtP. This Zoom meeting was recorded and the video released on the EtP website. I downloaded a copy of this video and include it as part of my affidavit as I will refer to it.
7. Trina was not on this Zoom meeting to give her side of the story of what had happened.

8. Simone was the one who had called the meeting and she did most of the talking at the beginning of it.
9. Around the 4 minute and 56 second mark in the video Simone mentions Simon Goldberg (Simon) and that he will be taking over the presentation, even though, from my understanding at the time, he was not a trustee of EtP or an executive of it.
10. Simon spends a little time setting the scene by giving his background and his experiences with fraud. He is the one that first mentions that Trina and Matt (of MFS solutions – a former service provider for EtP) were attempting to 'take' the intellectual property of EtP and 'that they wanted to create their own commercial entity' (starts at around 7:28 min' in the video).
11. Simon mentions (9:39 min') that they had resigned but then states that they had been 'dismissed' and their contracts were terminated as trustees because of what they (Trina and Matt) were doing.
12. He then states that they subsequently resigned (9:47 min). I find this confusing as it is not clear which came first – Trina resigning or being terminated by EtP.
13. Around the 27:17 min mark a screen pops up in the Zoom meeting that states: "WOULD YOU LIKE THE ASSOCIATION TO SUE FOR DAMAGES AND LOSSES?

YES OR NO

14. I found this very disturbing as I was only hearing one side of the story. I began to realize that there was something else going on here, otherwise why demonize Trina and Matt at such great length (over 20 minutes)?
15. A member called Ingrid speaks up around the 27:51 min' mark and points out that liability will fall to the members of EtP on the costs aspect of suing for damages.
16. In a roundabout way Simone admits that the monies to sue will come from member funds, which is what Ingrid was trying to point out.
17. Ingrid then asked the question as to what would happen if the costs exceeded the funds that the association had (29:01 min'). This was NEVER DIRECTLY ANSWERED.
18. When I observed this exchange take place between Ingrid and Simone and had observed the interruption that Simon did a little earlier (28:23 min'). I began to pay

closer attention to the interactions and especially to the behaviour of Simon as I was already seeing odd behaviour manifesting from both Simone and Simon, who supposedly were all about Equity (as in equitable behaviour). This behaviour was not what I was witnessing. It was bullying the members into accepting their side of the 'story'.

19. Around the 30:56 min' mark in the video Simon interrupts by saying that he is receiving messages from Ingrid who is saying that there is no transparency. Both of them agree to allow each other to speak, when they seem to talk over themselves and he agrees to allow Ingrid to speak without interrupting but ends up interrupting her train of thought multiple times. So much so, that uproar ensues and multiple members complain and tell him to let Ingrid speak.
20. Ingrid states that members are being asked to vote on something without getting the other side of the story and Simon takes umbrage with this and asks Ingrid if she has any allegiance with Trina and Matt.
21. What I witnessed was Simon trying to push a particular narrative where Trina and Matt are the bad guys in this whole situation and someone who wanted to get Trina and Matt's side of the story is demonized and belittled – far from any sort of equitable behaviour. This caused me to react as I was seeing the hidden evil intentions in what Simon was doing coming out.
22. Ingrid's concerns were not addressed at this point.
23. It is shortly after this that I speak up to the membership and state that we are being asked to vote on something that we have very little personal knowledge of (39:28 in the video) and that we are taking the word of Simone and Simon on what has occurred.
24. All Simone says is that they've (EtP) given the crime reference number and the ICO number and we can call the police ourselves and find out what they think about what has happened and what's gone on.
25. It is actually quite painful to watch this video again and see how my and Ingrid's concerns were treated by Simone and Simon.
26. Ingrid pointed out that Trina and Matt had sent out to all the members of EtP an email for a Special General Meeting request where both sides would present their

case and this was never done because, according to Simone, they had been 'terminated by that time'.

27. Remembering the anger I felt at the time this meeting occurred I made a decision to stay a member of EtP to 'see what other activities Simone and Simon would get up to' as I was worried for people that I knew had paid for services and were having issues in getting those services fulfilled.
28. I voted 'NO' to the points being raised as I couldn't in good conscience vote YES having not got the other parties' case put in front of me.
29. I don't want to go over the entire meeting within this affidavit as that would entail pages of data.
30. I had seen enough after only 42 minutes of a meeting that took just over 4 hours!
31. One more point I would like to make though on this meeting is that the PMA is set up with a Constitution that lays out in detail the procedures of the PMA and how to call Special General Meetings, how to appoint trustees, etc. This is the sort of people running the PMA.... Around the 1:17:47 mark Simone says, '... forget the [PMA] constitution right now....' The Constitution of the PMA is there for a reason and cannot be just tossed aside whenever someone feels like it regardless of who they are within the PMA structure – even the founder.
32. After this meeting finished I was made aware of various people who had paid money to EtP who had not received the services that they had paid for. One of the people was a friend of mine from the Chancery group we were both a part of before both of us became a member of EtP.
33. This group of people set up a new Telegram group to support each other in getting their money back from EtP or to figure out how to go forward if that failed.
34. Having voted 'NO' in a supposedly 'anonymous' vote within the meeting above to the resolutions that Simone and Simon wanted a vote on I received an email from Simone from her EtP email on the 16th of August where she offers a refund and/or to leave the membership (see Exhibit 6).
35. I forwarded this email to what I thought was Trina's email, but never checked the email address I was sending the email to which eventually went to Simone (due to Trina's email being deleted so the email defaulted to Simone's).

36. I subsequently sent an email to Simone to say that I wanted to stay a member on the 18th of August 2022 (Exhibit 6b).
37. 2 hrs after I sent the email Simon breached the Data Protection Act by sending me an email from his 'you and your cash' email address, not his EtP email giving an excuse that he wasn't able to set up his EtP email.
38. Simon's email is Exhibit 7. It is very nasty.
39. Instead of responding to this nasty email I sent an email to Simone which is Exhibit 8.
40. Simone then sent me an email showing that I had attempted to forward the email that was sent to me about my voting 'NO' to Trina. See Exhibit 9.
41. According to what I witnessed at the SGM on the 3rd of August 2022, I took the actions that I did to protect Trina from the actions of Simone and especially Simon.
42. I have had interactions with Trina since that time and have had a few Zoom meetings relating to trusts with her and have found her to be an honourable individual.
43. This contrasts quite heavily with the abuse I received from Simone and Simon. First they tell the members what has happened and do not allow any consideration for the other parties (Trina and Matt) to state their case, which is in and of itself suspicious, even though Trina and Matt tried to get an SGM arranged for BOTH sides to present their case.
44. Then they tell the members that the vote is anonymous. I find out it is not and warn Trina about what is going on of my own volition.
45. That unfortunately backfires on me and I get abusive emails from Simon and then Simone.
46. Having applied the data points in Exhibits 1 - 4 and seen the Constitution of the PMA tossed aside I pinpoint where both Simon and Simone are on the Emotional Tone Scale.
47. Woody, another PMA member and someone who spoke briefly in the video (46.16 min') was, at the time this following incident took place, a member of a Telegram channel called ESC (Earth Stewardship Co-Operative) which is run by a woman called Karen and promotes the teachings of Dean Clifford. At this time I was also a member.

48. Woody promotes EtP in the ESC channel and when I see it I immediately post a response warning people that Simone and Simon are a bunch of criminals having applied the knowledge I had learnt in the PTS/SP Course to their behaviour (See Exhibit 2 first page ALL CAPS paragraph at the top of the page and Exhibit 3 The Anti-Social Personality).
49. After a few messages back and forth between Woody and myself Woody was banned from the ESC channel by Karen.
50. I subsequently delete Woody's Telegram account from my list.
51. Simon has referenced me in a defamation lawsuit against Trina saying I am an agent of hers. I am not.
52. I do my best to protect Trina and anyone else from the suppressive nature of Simon and Simone and what they really stand for, which is nothing to do with Equity.
53. Equity means equality for ALL; Fairness for ALL; in a fair and just manner for ALL. [Note: emphasis added]
54. Simon and Simone have not shown that they live by these precepts. They use this term 'Equity' in way that I firmly believe that they really have no understanding of what it means.
55. I only truly understood what Equity really means and stands for in October 2024 due to paperwork I submitted to various government entities in a very particular way in Canada and then having people hear of what I did and then given feedback on it.
56. I have provided the data and the Exhibits that I have so that it cannot be disputed how I have come to my own conclusions on the subject of EtP and the behaviour of Simon and Simone.
57. Whatever Simon is accusing Trina of (I have not seen any of the paperwork in this defamation suite), I have certainty that it is exactly what Simon is doing, not Trina.
58. And to help a jury I have included all the data by which they themselves can ascertain this. The Exhibits have what they need but if they want to avail themselves of more data, especially the courses the Exhibits came from they can go to the site below and download the items given. The site is the biggest Scientology database of L Ron Hubbard's work on the internet and it is owned and operated by myself.

60. The site above, because of the way it is configured, does not have SSL set up. So one may get a warning from their browser, but I can assure anyone that there is nothing malicious about the site. It does not have any trackers, no ads, and no payment requirement.

61. Having some not inconsiderable knowledge and experience in the area of the human mind, beyond that of a psychologist or psychiatrist, and due to the experiences I have had with him, in my expert opinion Simon Goldberg is a querulous litigant, a bully and a suppressive person.

62. For those who are not able to figure out from the data I have provided as to where on the Emotional Tone Scale Simon (and by extension, Simone) is, he is at the level of 1.1. See Tone Scale (Exhibit 1) & Exhibit 10 – 2 excerpts from the Science of Survival.

63. Since I have removed myself from the UNITED KINGDOM'S (and CANADA'S) civil society via paperwork lodged with the UNITED KINGDOM Attorney General (NOTICE OF WITHDRAWAL FROM PUBLIC REPRESENTATION – or NWPR for short) and seen the results of that, I am no longer regulated by UNITED KINGDOM laws, statutes, codes and regulations or subject to it and make my own law and live by it.

64. This Affidavit is a creation of my will according to what I believe should be in it for others to make an informed decision, not what the laws, statutes, codes and

regulations of the UNITED KINGDOM (just another corporation) say should be in an affidavit.

65. If Simon Goldberg wants to sue me for defamation as well, he is most welcome but must pay my fees beforehand, as set by the Office of Private Trustee that regulates my activity, for me to deal with any emails, paperwork or court appearances and all the fees associated with those activities. Exhibit 11 has the updated Terms of Service I sent to the Attorney General (UK) with regards to my NWPR and will also apply to him, Simon, as a *subject* of the UNITED KINGDOM.
66. Any malicious and/or threatening communications to my UK postal address, my email address or phone number by Simon Goldberg (or Simone Marshall) will be reported to the relevant authorities and they will be ordered to deal with the matter.

THE CRIMINAL MIND

Definition: A criminal is one who is motivated by evil intentions and who has committed so many harmful overt acts that he considers such activities ordinary.

There is a datum of value in detecting overts and withholds in criminal individuals:

THE CRIMINAL ACCUSES OTHERS OF THINGS WHICH HE HIMSELF IS DOING.

As an example, the psychiatrist accuses others engaged in mental practice of harming others or worsening their condition, yet the majority of psychiatrists maim and kill their patients and, by record, in all history have only worsened mental conditions. After all, that's what they seem to be paid to do by the government.

The psychologist accuses others of misrepresenting what they do and lobbies in legislature continually to outlaw others on the accusation of misrepresenting but there is no psychologist who doesn't know that he himself is a fake, can accomplish nothing of value and that his certificates aren't even worth the printing ink. The psychologist goes further: He educates little children in all the schools to believe all men are soulless animals and criminals so that when the possible day of reckoning comes and the psychologist is exposed for what he is, the population will not be the least bit surprised and will consider the psychologist is "normal."

The psychologist accuses others of sexual irregularities when this is, actually, his entire profession.

Jack the Ripper of English fame who gruesomely murdered prostitutes now turns out to have been a medical doctor and was undoubtedly of enormous assistance to the police in pointing out "the real murderer."

The FBI agent or executive accuses others of graft and even sets up "Abscams" to manufacture the crime. But an FBI agent regularly pockets money supposed to be paid to informers and then screams to protect informer sources that do not exist.

The FBI agent is terrified of being infiltrated and accuses others of it when, as standard practice, he infiltrates groups, manufactures evidence and then gets others charged for crimes his own plants have committed.

The FBI acts like a terrorist group posing as law enforcement officers. Their targets seem to be legislators and Congress and public individuals who might someday have power over public opinion, such as Martin Luther King, Jr.

From all this we get another datum:

THE CRIMINAL MIND RELENTLESSLY SEEKS TO DESTROY ANYONE IT IMAGINES MIGHT EXPOSE IT.

You have to be very alert when criminals are around.

J. Edgar Hoover, who organized the present FBI and is still deified by it—they have his name in huge, brass letters on Washington, DC's biggest thoroughfare—and that town doesn't even have the names of former presidents up in lights—has been shown by subsequent records to have been a blackmailer and traitor to his country. He carefully, personally sat on the information for four months that Pearl Harbor was going to happen. Right up to the US entrance into World War II, he was autographing his photo for pals in the deadly German SS. He even sacked an FBI agent (Tureau) who dared to catch some German spies.

Doctors, psychologists, psychiatrists and the government form a tight clique. Only the government would support such people as the public hates them.

From all this we get another datum:

INDIVIDUALS WITH CRIMINAL MINDS TEND TO BAND TOGETHER SINCE THE PRESENCE OF OTHER CRIMINALS ABOUT THEM TENDS TO PROVE THEIR OWN DISTORTED IDEAS OF MAN IN GENERAL.

It is not true that where any person accuses another of a crime the accuser is always guilty of the crime or that type of crime. But it is true that when a criminal is doing the accusing it is more than probable that the criminal is disclosing his own type of crime.

Apparently they add it up this way: "If I accuse him of robbing, then it would be assumed by others that I have not robbed a bank." By loudly voicing a condemnation of a crime, the criminal, with a crooked think, supposes people will now suppose he is above bank robbery and won't suspect him.

Groups like psychologists who declare as fact that all men are criminals are of course just dramatizing their own inclinations.

People assume that others have their own case. The psychologist pushes his own case off on the whole world.

Anyone researching in the mind should be very aware of this point and be sure not to do it. Subjective reality seems to them to be the only reality there is, for such people are too introverted to really know the minds and motivations of others.

When working with the criminal, one can get a very good idea of that person's own mental state by getting him to say what other people want and do or are guilty of.

It is inconceivable to the criminal that anyone could possibly be decent or honest or do a selfless act. It would do no good whatever to try to convince him, for he *knows* all men are like himself.

Thus, one gets another datum of value:

THE CRIMINAL ONLY SEES OTHERS AS HE HIMSELF IS.

One of the reasons he does this, of course, is to justify injuring others. Because everyone else is useless, worthless, criminal, an animal and insane, why then, he reasons, it is perfectly all right to injure them.

Thus, we come to another datum:

THE CRIMINAL IS NOT MUCH BENEFITED BY THE GIVING OFF OF CURRENT WITHHOLDS AND IS NOT LIKELY TO REFORM BECAUSE OF THIS.

One, therefore, has to get down to the basic evil intentions, as in Expanded Dianetics.

There is another approach in that same area of technology which is finding what act the person really can take responsibility for. It is a gradient approach.

The criminal is basically so subjective that an auditor will find, in the short run, that improving the reality of such a person is needful before any effective, overall improvement is obtained through pulling withholds.

Thus, TRs and 8-C and even ARC Straightwire are indicated as first steps. If these are done, and as responsibility rises, expect that overts could begin to pop up almost of their own accord.

It is interesting that if a criminal were to face up suddenly to the enormity of his crimes he would go into degradation and self-destruction. Thus, a gradient scale is definitely indicated.

As the person has more R (reality), he can take more responsibility and only then with pulling withholds can he have any real benefit.

This HCOB is simply some data on the criminal mind that might help.

At the very least it should give some understanding of why some individuals insist with such apparent conviction that all men are evil, why all men are insane, why all men are criminals.

And it also tells you how silly it is to try to argue with them. Who's there?

The criminal mind is a bitter and unsavory subject. The percentage of criminals is relatively small but the majority of grief and turmoil in the world caused by criminals is a majority percent. Thus, the criminal mind is a subject one cannot avoid in research as it is a major factor in the distortion of a culture.

It is a mind like any other mind but it has gone wrong. It is motivated by evil intentions which, even if idiotic, are greater than the possessor's ability to reason. The criminal, even when he seems most clever, is really very, very stupid. The evil intentions get dramatized by senseless overt acts which are then withheld, and the final result is a person who is more dead than alive and who faces a future so agonizing that any person would shudder at it. The criminal, in fact,

has forfeited his life and any meaning to it even when he remains "uncaught" and "unpunished," for in the long run, he has caught himself and punishes himself for all eternity. No common judge can give a sentence as stiff as that. They know down deep that this is true and that is why they scream with such ferocity that men have no souls. They can't confront the smallest part of what awaits them.

When you understand what the criminal mind consists of, you can also understand how ghastly must be the feelings or lack of them with which the criminal has to live within himself and for all his days forever. He is more to be pitied than punished. Neither bold nor brave, for all his pretense, he is really just a panicky, whimpering coward inside. When he bares his breast against the bullets, he does so with the actual hope that he will be killed. But of course that doesn't save him. He's got an eternity of it left to go. And his scoff of any such data hides the whimper, for he knows, deep down, it's true.

Thus, we have another datum:

> THE CRIMINAL, NO MATTER WHAT HARM HE IS DOING TO OTHERS, IS ALSO SEEKING TO DESTROY HIMSELF. HE IS IN PROTEST AGAINST HIS OWN SURVIVAL.

If you have to work with criminals in pastoring, recognize what you are working with. He *can* be helped—if he will let you near him.

Fortunately, there are still a lot of decent people left in the world.

THE ANTI-SOCIAL PERSONALITY
THE ANTI-SCIENTOLOGIST

There are certain characteristics and mental attitudes which cause about 20% of a race to oppose violently any betterment activity or group.

Such people are known to have anti-social tendencies.

When the legal or political structure of a country becomes such as to favour such personalities in positions of trust, then all the civilizing organizations of the country become suppressed and a barbarism of criminality and economic duress ensues.

Crime and criminal acts are perpetuated by anti-social personalities. Inmates of institutions commonly trace their state back to contact with such personalities.

Thus, in the fields of government, police activities and mental health, to name a few, we see that it is important to be able to detect and isolate this personality type so as to protect society and individuals from the destructive consequences attendant upon letting such have free rein to injure others.

As they only comprise 20% of the population and as only 2½% of this 20% are truly dangerous, we see that with a very small amount of effort we could considerably better the state of society.

Well known, even stellar examples of such a personality are, of course, Napoleon and Hitler. Dillinger, Pretty Boy Floyd, Christie and other famous criminals were well known examples of the anti-social personality. But with such a cast of characters in history we neglect the less stellar examples and do not perceive that such personalities exist in current life, very common, often undetected.

When we trace the cause of a failing business, we will inevitably discover somewhere in its ranks the anti-social personality hard at work.

In families which are breaking up we commonly find one or the other of the persons involved to have such a personality.

Where life has become rough and is failing, a careful review of the area by a trained observer will detect one or more such personalities at work.

As there are 80% of us trying to get along and only 20% trying to prevent us, our lives would be much easier to live were we well informed as to the exact manifestations of such a personality. Thus we could detect it and save ourselves much failure and heartbreak.

It is important then to examine and list the attributes of the anti-social personality. Influencing as it does the daily lives of so many, it well behooves decent people to become better informed on this subject.

ATTRIBUTES

The anti-social personality has the following attributes:

1. He or she speaks only in very broad generalities. "They say . . ." "Everybody thinks . . ." "Everyone knows . . ." and such expressions are in continual use, particularly when imparting rumor. When asked "Who is everybody . . ." it normally turns out to be one source and from this source the anti-social person has manufactured what he or she pretends is the whole opinion of the whole society.

This is natural to them since to them all society is a large hostile generality, against the anti-social in particular.

2. Such a person deals mainly in bad news, critical or hostile remarks, invalidation and general suppression.

"Gossip" or "harbinger of evil tidings" or "rumor monger" once described such persons.

It is notable that there is no good news or complimentary remark passed on by such a person.

3. The anti-social personality alters, to worsen, communication when he or she relays a message or news. Good news is stopped and only bad news, often embellished, is passed along.

Such a person also pretends to pass on "bad news" which is in actual fact invented.

4. A characteristic, and one of the sad things about an anti-social personality, is that it does not respond to treatment or reform or psycho-therapy.

5. Surrounding such a personality we find cowed or ill associates or friends who, when not driven actually insane, are yet behaving in a crippled manner in life, failing, not succeeding.

Such people make trouble for others.

When treated or educated, the near associate of the anti-social personality has no stability of gain but promptly relapses or loses his advantages of knowledge, being under the suppressive influence of the other.

Physically treated, such associates commonly do not recover in the expected time but worsen and have poor convalescences.

It is quite useless to treat or help or train such persons so long as they remain under the influence of the anti-social connection.

The largest number of insane are insane because of such anti-social connections and do not recover easily for the same reason.

Unjustly we seldom see the anti-social personality actually in an institution. Only his "friends" and family are there.

6. The anti-social personality habitually selects the wrong target.

If a tyre is flat from driving over nails, he or she curses a companion or a non-causative source of the trouble. If the radio next door is too loud, he or she kicks the cat.

If A is the obvious cause, the anti-social personality inevitably blames B, or C or D.

7. The anti-social cannot finish a cycle of action.

Such become surrounded with incomplete projects.

8. Many anti-social persons will freely confess to the most alarming crimes when forced to do so, but will have no faintest sense of responsibility for them.

Their actions have little or nothing to do with their own volition. Things "just happened".

They have no sense of correct causation and particularly cannot feel any sense of remorse or shame therefore.

9. The anti-social personality supports only destructive groups and rages against and attacks any constructive or betterment group.

10. This type of personality approves only of destructive actions and fights against constructive or helpful actions or activities.

The artist in particular is often found as a magnet for persons with anti-social personalities who see in his art something which must be destroyed and covertly, "as a friend", proceed to try.

11. Helping others is an activity which drives the anti-social personality nearly berserk. Activities, however, which destroy in the name of help are closely supported.

12. The anti-social personality has a bad sense of property and conceives that the idea that anyone owns anything is a pretense made up to fool people. Nothing is ever really owned.

THE BASIC REASON

The basic reason the anti-social personality behaves as he or she does lies in a hidden terror of others.

To such a person every other being is an enemy, an enemy to be covertly or overtly destroyed.

The fixation is that survival itself depends on "keeping others down" or "keeping people ignorant".

If anyone were to promise to make others stronger or brighter, the anti-social personality suffers the utmost agony of personal danger.

They reason that if they are in this much trouble with people around them weak or stupid, they would perish should anyone become strong or bright.

Such a person has no trust to a point of terror. This is usually masked and unrevealed.

When such a personality goes insane the world is full of Martians or the FBI and each person met is really a Martian or FBI agent.

But the bulk of such people exhibit no outward signs of insanity. They appear quite rational. They can be very convincing.

However, the list given above consists of things which such a personality cannot detect in himself or herself. This is so true that if you thought you found yourself in one of the above, you most certainly are not anti-social. Self-criticism is a luxury the anti-social cannot afford. They must be RIGHT because they are in continual danger in their own estimation. If you proved one WRONG, you might even send him or her into a severe illness.

Only the sane, well-balanced person tries to correct his conduct.

RELIEF

If you were to weed out of your past by proper search and discovery those anti-social persons you have known and if you then disconnected, you might experience great relief.

Similarly, if society were to recognize this personality type as a sick being as they now isolate people with smallpox, both social and economic recoveries could occur.

Things are not likely to get much better so long as 20% of the population is permitted to dominate and injure the lives and enterprise of the remaining 80%.

As majority rule is the political manner of the day, so should majority sanity express itself in our daily lives without the interference and destruction of the socially unwell.

The pity of it is, they will not permit themselves to be helped and would not respond to treatment if help were attempted.

An understanding and ability to recognize such personalities could bring a major change in society and our lives.

THE SOCIAL PERSONALITY

Man in his anxieties is prone to witch hunts.

All one has to do is designate "people wearing black caps" as the villains and one can start a slaughter of people in black caps.

This characteristic makes it very easy for the anti-social personality to bring about a chaotic or dangerous environment.

Man is not naturally brave or calm in his human state. And he is not necessarily villainous.

Even the anti-social personality, in his warped way, is quite certain that he is acting for the best and commonly sees himself as the only good person around, doing all for the good of everyone—the only flaw in his reasoning being that if one kills everyone else, none are left to be protected from the imagined evils. His conduct in his environment and toward his fellows is the only method of detecting either the anti-social or the social personalities. Their motives for self are similar—self preservation and survival. They simply go about achieving these in different ways.

Thus, as Man is naturally neither calm nor brave, anyone to some degree tends to be alert to dangerous persons and hence, witch hunts can begin.

It is therefore even more important to identify the social personality than the anti-social personality. One then avoids shooting the innocent out of mere prejudice or dislike or because of some momentary misconduct.

The social personality can be defined most easily by comparison with his opposite, the anti-social personality.

This differentiation is easily done and no test should ever be constructed which isolates only the anti-social. On the same test must appear the upper as well as lower ranges of Man's actions.

A test that declares only anti-social personalities without also being able to identify the social personality would be itself a suppressive test. It would be like answering "Yes" or "No" to the question "Do you still beat your wife?" Anyone who took it could be found guilty. While this mechanism might have suited the times of the Inquisition, it would not suit modern needs.

As the society runs, prospers and lives solely through the efforts of social personalities, one must know them as *they*, not the anti-social, are the worthwhile people. These are the people who must have rights and freedom. Attention is given to the anti-social solely to protect and assist the social personalities in the society.

All majority rules, civilizing intentions and even the human race will fail unless one can identify and thwart the anti-social personalities and help and forward the social personalities in the society. For the very word "society" implies social conduct and without it there is no society at all, only a barbarism with all men, good or bad, at risk.

The frailty of showing how the harmful people can be known is that these then apply the characteristics to decent people to get them hunted down and eradicated.

The swan song of every great civilization is the tune played by arrows, axes or bullets used by the anti-social to slay the last decent men.

Government is only dangerous when it can be employed by and for anti-social personalities. The end result is the eradication of all social personalities and the resultant collapse of Egypt, Babylon, Rome, Russia or the West.

You will note in the characteristics of the anti-social personality that intelligence is not a clue to the anti-social. They are bright or stupid or average. Thus those who are extremely intelligent can rise to considerable, even head-of-state heights.

Importance and ability or wish to rise above others are likewise not indexes to the anti-social. When they do become important or rise they are, however, rather visible by the broad consequences of their acts. But they are as likely to be unimportant people or hold very lowly stations and wish for nothing better.

Thus it is the twelve given characteristics alone which identify the anti-social personality. And these same twelve reversed are the sole criteria of the social personality if one wishes to be truthful about them.

The identification or labeling of an anti-social personality cannot be done honestly and accurately unless one *also*, in the same examination of the person, reviews the positive side of his life.

All persons under stress can react with momentary flashes of anti-social conduct. This does not make them anti-social personalities.

The true anti-social person has a majority of anti-social characteristics.

The social personality has a majority of social characteristics.

Thus one must examine the good with the bad before one can truly label the anti-social or the social.

In reviewing such matters, very broad testimony and evidence are best. One or two isolated instances determine nothing. One should search all twelve social and all twelve anti-social characteristics and decide on the basis of actual evidence, not opinion.

The twelve primary characteristics of the social personality are as follows:

1. The social personality is specific in relating circumstances. "Joe Jones said . . ." "The Star Newspaper reported . . ." and gives sources of data where important or possible.

He may use the generality of "they" or "people" but seldom in connection with attributing statements or opinions of an alarming nature.

2. The social personality is eager to relay good news and reluctant to relay bad.

He may not even bother to pass along criticism when it doesn't matter.

He is more interested in making another feel liked or wanted than disliked by others and tends to err toward reassurance rather than toward criticism.

3. A social personality passes communication without much alteration and if deleting anything tends to delete injurious matters.

He does not like to hurt people's feelings. He sometimes errs in holding back bad news or orders which seem critical or harsh.

4. Treatment, reform and psychotherapy particularly of a mild nature work very well on the social personality.

Whereas anti-social people sometimes promise to reform they do not. Only the social personality can change or improve easily.

It is often enough to point out unwanted conduct to a social personality to completely alter it for the better.

Criminal codes and violent punishment are not needed to regulate social personalities.

5. The friends and associates of a social personality tend to be well, happy and of good morale.

A truly social personality quite often produces betterment in health or fortune by his mere presence on the scene.

At the very least he does not reduce the existing levels of health or morale in his associates.

When ill, the social personality heals or recovers in an expected manner, and is found open to successful treatment.

6. The social personality tends to select correct targets for correction. He fixes the tyre that is flat rather than attack the windscreen. In the mechanical arts he can therefore repair things and make them work.

7. Cycles of action begun are ordinarily completed by the social personality, if possible.

8. The social personality is ashamed of his misdeeds and reluctant to confess them. He takes responsibility for his errors.

9. The social personality supports constructive groups and tends to protest or resist destructive groups.

10. Destructive actions are protested by the social personality. He assists constructive or helpful actions.

11. The social personality helps others and actively resists acts which harm others.

12. Property is property of someone to the social personality and its theft or misuse is prevented or frowned upon.

THE BASIC MOTIVATION

The social personality naturally operates on the basis of the greatest good.

He is not haunted by imagined enemies but he does recognize real enemies when they exist.

The social personality wants to survive and wants others to survive, whereas the anti-social personality really and covertly wants others to succumb.

Basically the social personality wants others to be happy and do well, whereas the anti-social personality is very clever in making others do very badly indeed.

A basic clue to the social personality is not really his successes but his motivations. The social personality when successful is often a target for the anti-social and by this reason he may fail. But his intentions included others in his success, whereas the anti-social only appreciate the doom of others.

Unless we can detect the social personality and hold him safe from undue restraint and detect also the anti-social and restrain him, our society will go on suffering from insanity, criminality and war, and Man and civilization will not endure.

Of all our technical skills, such differentiation ranks the highest since, failing, no other skill can continue, as the base on which it operates—civilization—will not be here to continue it.

Do not smash the social personality—and do not fail to render powerless the anti-social in their efforts to harm the rest of us.

Just because a man rises above his fellows or takes an important part does not make him an anti-social personality. Just because a man can control or dominate others does not make him an anti-social personality.

It is his motives in doing so and the consequences of his acts which distinguish the anti-social from the social.

Unless we realize and apply the true characteristics of the two types of personality, we will continue to live in a quandary of who our enemies are and, in doing so, victimize our friends.

All men have committed acts of violence or omission for which they could be censured. In all Mankind there is not one single perfect human being.

But there are those who try to do right and those who specialize in wrong and upon these facts and characteristics you can know them.

1000	40.0	High creative persistence.	High differentiation. Good understanding of all comm., as modified by dear's education.	Gains support by creative enthusiasm and vitality backed by reason.	No engrams. Present-time phrases no reactive value. No locks.	Highly stable in p. t.* Does not leave it. All percepts clear.	Can recall or remember at will anything that has been perceived.	Responds to any pleasure stimuli in environ. Enjoys life. All past moments of pleasure available.	Mechanism not necessary.	All locks discharged.	All locks have been scanned.	All secondaries out.	All current-life MEST engrams out.		All control vested in "I." No circuits.	Computes accurately with flash answers.	Impossible to hypnotize without drugs.	Full analytical.	All locks, secondaries, engrams converted.	Finds existence very full of pleasure.	Can audit out anything but a heavy drug engram without an auditor.		40.0	1000
900 to 100	36.0 to 4.0																						36.0 to 4.0	900 to 100
100	4.0																					Any engram may be run out as soon as consciousness returns.	4.0	100
70	3.5	Good persistence and direction toward constructive goals.	Good grasp of statements. Good sense of humor.	Gains support by creative reasoning and vitality.	Chains of engrams effective. Individual phrases mildly effective.	Very alert to p. t. Stable in it.	Straight memory is automatic on material.	Runs pleasure moments easily. Most past pleasure available.	Mechanism not necessary. Differentiates well between reality and imagination.	Locks blow as fast as engram is erased.	Scan auditing and locks of engrams just run.	Run out all secondaries. They will release if scanned as locks.	Any engram on case will run with all perceptics.	Engrams can be scanned if carefully checked.	Circuits out of case.	F. C. very active and dependable.	Difficult to trance unless still possessed of a trance engram.	Analytical about 70% on.	Major lock chains and nearly all secondaries converted. Light charge on some engrams.	Finds life pleasureable most of the time.	3.0 Altitude not necessary.	Scan engrams and secondaries and all lock chains until case clear.	3.5	70
47	3.0	Fair persistence if obstacles not too great.	Good differentiation of meaning of statements.	Invites support by practical reasoning and social graces.	Engram action phrases effective.	Pc has no difficulty reaching or staying in p. t.	Use straight memory on auditing and locks.	Runs p. m. easily, but much past and present pleasure unavailable.	Use imaginary pleasure moments to raise tone.	Treatment of locks as individual incidents unnecessary.	Sharpen perceptics by scanning locks.	Secondaries can be touched and left without bad effect at this level and above only.	Auditor can choose early *speciiic engrams* to run, but should work with F. C.	Never scan engrams.	Few active circuits.	F. C. active and dependable.	Could be hypnotized, but alert when awake.	Analytical about 47% on.	A few highly charged lock chains. A few secondaries, minor charge. Engrams only lightly charged.	Experiences pleasure some of the time.	3.0	Run engrams, secondaries. Keep auditing scanned off.	3.0	47
32	2.5	Idle, poor concentration.	Accepts very little, literally or otherwise. Apt to be literal about humor.	Careless of support from others.	Engrams effective. Chains of secondaries effective.	Once brought to p. t., pc usually remains there until next processing.	Use s. m. to contact anger, fear, and apathy dramatizations of people in pc's life.	Runs p. m. Present and past pleasure occasionally occluded.	Mechanism useful at start of case. Imaginary pleasure moments.	Treatment of locks as individual incidents relatively productive.	Scan locks until engrams show up clearly. Run those. Scan locks again for new engrams.	Any secondary can be run. Usually will discharge.	Run engrams as presented by F C. only.	Never scan engrams.	Some circuits Not effective in secondaries or prenatals.	F. C. responsive. Occluded on secondaries occasionally.	Can be a hypnotic subject, but mostly alert.	Analytical about 32% on.	A few highly charged lock chains. Major secondaries existing. About ½ engrams enough charged to be wholly uncontactable	Experiences moments of pleasure. Low intensity	3.0	Scan locks, runs secondaries and engrams as routine. Scan all circuits located in locks.	2.5	32
22	2.0	Persistence toward destruction of enemies. No constructive persistence below this point	Accepts remarks of tone 2.0 literally.	Nags and bluntly criticizes to demand compliance with wishes.	Engrams effective. Secondaries effective. Lock chains effective.	Pc must be brought to p. t. and stabilized there.	Use s. m. on ARC locks, broken dramatizations, and pleasure moments.	A few real p. m. can be reached. Takes pleasure in venting antagonism.	Imaginary revenges will clue what has been done to p. c.	Locks can be contacted and restjmulaled without reducing.	Scan locks, working chains given up by F. C. Reduce all chains contacted.	Run any secondary. Run thoroughly until discharged.	Cautiously run those engrams F. C. will present. Do not force pc into engrams.	Never scan engrams.	Numerous in prenatals. Not effective in locks.	F.C. works most of the time.	Negates somewhat, but can be hypnotized.	Analytical responsive. Reactive fully alert.	Many highly charged lock chains Many major secondaries Half of engrams in bank wholly uncontactable.	Occasionally experiences some pleasure in extraordinary moments.	3.0	Scan locks. Run secondaries. Run only engrams F C. easily presents. Locate circuits in locks.	2.0	22
15	1.5	Destructive persistence begins strongly, weakens quickly.	Accepts alarming remarks literally. Brutal sense of humor.	Uses threats, punishment, and alarming lies to dominate others.	Locks, secondaries, engrams effective if matching tone. Control phrases most effective.	Pc out of p. t. Reduce locks and get to p. t.	Use s. m. on ARC locks and efforts of others to control pc.	True p. m. difficult to find. Reactive satisfaction in destroying.	Mechanism can be used with profit. All incidents seem imaginary.	Run broken dramatizations ARC locks, like engrams, until charge is off.	Scan locks until pc sticks in one. Run it as an engram. Avoid scanning through any physical pain.	Run secondaries of fear, grief, or anger. Usually they are hard to discharge.	Caution. Run only engrams which easily present themselves. Be careful.	Never scan engrams.	Relatively heavy. Effective in secondaries.	F. C. works occasionally. Occluded most of the time.	Negates heavily against remarks, but absorbs them.	Analytical shutting down. Reactive well on.	Highly charged lock chains. Heavy secondaries. ¾ of engrams in bank wholly uncontactable.	Seldom experiences any pleasure.	3.0	Scan locks. Run locks and secondaries as engrams. Be very careful with any engram. Use s. m. on circuits.	1.5	15
10	1.1	Vacillation on any course. Very poor concentration. Flighty.	Lack of acceptance of any remarks. Tendency to accept all literally avoided by forced humor.	Nullifies others to get them to level where they can be used. Devious and vicious means. Hypnotism, gossip. Seeks hidden control.	Locks, secondaries, engrams effective. Valence shifters very effective.	Pc stays out of p. t. most of time. Reaching it, slumps back. Get charge off locks and bring to p. t.	Use s. m. on things he knows are real. And on broken dramatizations.	Occasional pleasant memory can be found but very rare. Reactive delight in inflicting sadistic injuries on helpless persons or objects.	Too hypnotic. Suggest no such incidents.	Run ARC break locks as engracns.	Same as 1.5 but more cautiously. If too much enturbulation results use s. m. technique proper at this level.	Caution. Run any fear secondary presented by K. C. Usually they will not wholly discharge.	Never touch an engram on this level.	Never scan engrams.	Heavy particularly in prenatal engrams.	Circuit "F. C." gives data by strange mechanisms. Not dependable.	In a permanent light trance, but negates.	Analytical nearly shut down. Reactive responsive.	Most lock chains charged nearly as heavy as secondaries Secondary charges mainly sunk into engrams. Engrams nearly all uncontactable.	Most gaiety forced. Real pleasure out of reach	3.5 or above. (Such; cases very restimulative.)	Establish ARC. Adopt pc's tone if necessary (mimicry). Use s. m. on locks, scan locks. Touch no engrams.	1.1	10
6	0.5	Sporadic persistence toward self-destruction.	Literal acceptance of any remark matching tone.	Enturbulates others to control them. Cries for pity. Wild lying to gain sympathy.	Present-time percepts, locks, secondaries, engrams effective. Groupers particularly.	Attempt to bring pc to p. t. Sags back immediately.	Use only s. m. and contact with p. t.	No p. m. available. Experiences little or none in p. t.	Too hypnotic. Use no such mechanism.	Treat only very lightest locks near p. t. Running heavier locks pulls pc into engrams.	Do not scan locks.	Caution. Run secondaries only when presented by F. C. Do not order pc into them.	Never touch an engram on this level.	Never scan engrams.	Very heavy, particularly in prenatal and childhood. Active in early locks.	No response from real. F. C. Circuits sometimes respond.	Very hypnotic. Any remark made may be a "positive suggestion."	Analytical shut down. Reactive shutting down.	Almost a solid sheet of charge.	None	3.5 or above.	Establish ARC. Heavy affinity. Get up some minor apathy locks. Touch no engrams.	0.5	6
3	0.1	None.	Complete literal acceptance.	Pretends death so others will not think him dangerous and will go away.	All phrases, in present or from past, effective.	Pc may be coaxed to experience p. t. percepts.	Use only as aid to contacting environment.	No reaction.	None.	Touch only lightest past moments if any.	Never scan.	Do not let pc get into any secondaries.	Never touch engrams on this level.	Never scan.	Heavy over entire span of track. Even late locks contain circuits.	No trace of F C.	Is equivalent to a hypnotized subject when "awake."	Reactive only very slightly on.	Track too charged for anything but straight memory.	None.	3.5 pr above	Establish ARC and get pc into contact with p. t. Touch no engrams, or secondaries.	0.1	3

    b. The facilitation of a private society who can become fully empowered and educated and cognisant of their private status and of equity and can manage their own private affairs.

    c. The facilitation of private society that can support and encourage its members in all agreed community endeavours, relating to community infrastructure, education, asset protection, food security, natural healthcare provision, and financial freedom.

    d. The provision of education and asset protection services known as "privileges" or "benefits" to its members.

Membership

5. Any person of any age who satisfies the membership qualifications shall be eligible to be a member.

6. The signatories to these Rules are the first members of the Association.

7. An applicant for membership must be proposed in writing by one member and must submit a signed and dated application/declaration form to the Secretary stating:

    a. the applicant's name, address, and contact information.

    b. that the applicant has been given and has read a copy of these Rules and Ethos and supports the object(s) of the Association and agrees to be bound by the Rules immediately upon admission to membership.

    c. the applicant's consent to the holding of relevant data for the purposes of the Data Protection Act 2018.

8. Until an applicant is approved for membership, he is not entitled to any of the privileges of the Association.

9. The Executive Committee, or any sub-committee to which the Executive Committee delegate such power, decides all applications for membership.

Qualification for Membership

10. Any person who meets the following qualifications (the "membership qualifications") may be entitled to apply for membership subject to any further provisions in these Rules:

    a. Must be over 18 years old

    b. Must be prepared to study

    c. Must have the intention to live in harmony and in peace with other private members of society

    d. Must have made a personal declaration to the Association, to follow its rules and ethos.

Officers and their Duties

11. The Association has the following Officers, who are elected by the members for three-year terms:

a. Chairman - who chairs all General Meetings and all Executive Committee meetings when present.

b. Secretary - who is responsible for the keeping of all books and records of the Association, including the Members' Register (containing the name and address of every member and such other contact details as the member supplies) and the taking of minutes of all General Meetings and Executive Committee meetings.

c. Treasurer - who ensures that the financial affairs of the Association are kept in good order and that annual accounts and a financial report are submitted to the Executive Committee for it to place before the members at the Annual General Meeting.

Executive Committee

12. The day-to-day running of the Association is under the control of the Executive Committee which consists of:

a. The 3 Officers of the Association

b. No more than 4 other members of the Association, elected for one year

c. No more than 4 other members of the Association, co-opted by the Executive Committee at any time for a period of no more than one year

13. A quorum for Executive Committee meetings is 3.

14. The members present will elect a chair for that meeting whenever the Chairman is not present.

15. Minutes of Executive Committee meetings must be taken and made available to all Association members.

16. The Executive Committee has the following powers and responsibilities:

    a. Supervision and direction of the day to day running of the Association.

    b. Preparation and presentation to the Annual General Meeting of a written annual report on the Association and its activities (annexing the annual accounts and the Treasurer's financial report).

17. Appointment of sub-committees, whose membership must include at least one member of the Executive Committee, to which it may delegate powers and duties on such terms as the Executive Committee thinks fit.

Vacancies on Executive Committee

18. The Executive Committee may appoint a member to fill any casual vacancy on the Executive Committee until the next annual general meeting.

19. Any member so appointed must retire at the next annual general meeting but may be elected as a member of the Executive Committee at that meeting.

Financial Year, Accounts, and Auditors

20. The Association financial year runs to the 31 December. An income and expenditure account must be made for that year and the balance sheet struck at that date.

21. An external accountancy firm will be selected, or two members of the association will be elected by the Executive Committee, as Auditors for one-year terms to audit the annual accounts.

Re-election and Further Terms of Office

22. Members are eligible for re-election for further terms as Officers or members of the Executive Committee for a maximum of 3 consecutive terms and shall serve no more than 4 terms in total in any specific role.

23. Members are always eligible for re-appointment for further terms as Auditors of the Association's annual accounts.

Membership and Subscriptions

24. The membership subscription is an ongoing monthly fee at £10, £30, or £50 per calendar month. The subscription fee can be paid annually in advance at a discounted amount of £100, £300, or £500 (17%) for each calendar year or by other arrangement (instalments) agreed with the Executive Committee.

25. On being admitted to the Association there is no entrance fee to be paid.

26. The future level of subscription and entrance fee may be changed by a resolution at the Annual General Meeting passed by a majority of those present when the vote is taken.

27. A new member joining part way through a financial year, on an annual subscription, will pay a pro-rata subscription fee due for the remaining calendar year and the full subscription must be paid by the 31 January (the Fee Date) for the new financial year.

Renewal

28. Membership is automatically continued each month and year unless:

a. The member resigns on or before a full calendar month is completed, or by 31 December, in which case the member is under no obligation to pay any part of the subscription for a new month or year; or

b. The member fails to pay the new annual subscription by 31 January, and no instalment plan is agreed, when the member is treated as having resigned on 31 December unless within 30 days of 31 January, he or she gives the Secretary a written request by post or by email, to remain a member and the Executive Committee then so allows on whatever terms it imposes as to payment of that subscription or otherwise: or

c. Where it has been agreed that the annual subscription shall be paid by instalments, if any instalment is not paid within 30 days of falling due, the member shall be treated as having resigned on that date and the balance of the annual subscription that is unpaid shall be due immediately, unless within 30 days of that date he or she gives the Secretary a written request by post or by email to remain a member and the Executive Committee then so allows on whatever terms it imposes as to payment of that subscription or otherwise.

Resignation from Membership

29. A member may resign at any time by notice in writing by post or by email to the Secretary. On receiving the notice, the Secretary will immediately remove that member from the Members' Register, which terminates membership.

30. The resigning member is not entitled to any return or rebate of subscription and remains liable for any unpaid subscription and any other sums due from him or her to the Association.

Disciplinary Offences and Grievances

31. Any member who is in serious or persistent breach of these Rules or who otherwise acts in a way which in the opinion of the Executive Committee is seriously or persistently inappropriate for a member of this Association may be disciplined as set out in the Disciplinary Regulations in Annex 1.

32. Any member who is aggrieved by anything the Association or its members have instigated or actioned, the Association may investigate and deal with the matter as set out in the Grievance Regulations in Annex 1.

Effect of Resignation, Expulsion, or Death

33. All rights and interests in the Association and its property cease immediately on termination of membership by resignation, expulsion, or death.

General Meetings of Members

34. Annual General Meeting: An annual general meeting of all members must be held in April each year (or, failing that, as soon as possible thereafter) and called by the Secretary on 14 days' written notice to the members by post or by email stating the date, time and place of the meeting, and the business to be conducted. The business will include:

a. presentation and summary explanation by the Treasurer of (a) the Association's annual accounts for the financial year last ended and (b) a budget for the Association's current financial year for approval of the members (if they so decide);

b. consideration of the Executive Committee's annual report;

c. election of Officers, members of the Executive Committee and Auditors; and

d. such resolutions as are stated in the notice of the meeting.

35. Special General Meeting: At any time the Executive Committee or any 2 members may by a joint written notice request by post or by email the Secretary to call a meeting of members and the Secretary must then a call a Special General Meeting on no less than 21 days' written notice by post or by email to all members stating the date, time and place of the meeting, and the business to be conducted.

36. The quorum for the Annual General Meeting and any Special General Meeting is 3.

37. The voting members present elect a chair for any general meeting whenever the Association Chair is not present.

38. Minutes of the General Meetings must be taken and made available to all members.

Notices

39. Any notice required or allowed to be given to any member under these Rules is validly given if: (i) sent by post to that member's address in the Member's Register (in which case it is deemed given to the member 2 days after posting); or (ii) given to him personally; or (iii) sent by email to that member's email address in the Members' Register.

40. Any notice required or allowed to be given by any member to the Secretary under these Rules is validly given if sent by post or email to the Secretary at the postal address, email or most recently notified to members by the Secretary. It is deemed given when received at that address or email.

Resolutions and Voting

41. Resolutions and other decisions at all General Meetings, Executive Committee or any sub-committee meetings are passed and made if so voted by a majority of those members present and voting when the vote is taken.

42. Voting may at the discretion of the Chair be undertaken by show of hands, by ballot or by show of hands followed by ballot.

43. Proxies are allowed upon written notice by post or by email the member to vote by proxy to the Secretary prior to the meeting stating the name of the member to vote on their behalf in the forthcoming meeting.

Trustees and Association Property

44. There will be 4 Trustees of the Association who are the Treasurer and 3 other members elected in a General Meeting.

45. The first Trustees are the Treasurer and 3 other members elected at the first Members' Meeting at which these Rules have been adopted.

46. A General Meeting may remove or appoint Trustees at any time (except that the Treasurer cannot be removed as a Trustee if he or she is Treasurer but ceases to be a Trustee on ceasing to be Treasurer when the new Treasurer automatically becomes a Trustee).

47. A Trustee holds office until death, resignation, or removal by a General Meeting.

48. All property of the Association including money (except cash up to £1000 held by the Treasurer at any time for Association purposes) is to be held and used by the Trustees for the benefit of the Association.

49. The Trustees will hold and use the Association's property in accordance with all lawful directions of the Executive Committee.

Employment and Other Contracts

50. The Association may engage specialist consultants and external partners on such terms as the Executive Committee decides, however, there may not be any employees directly employed and given a wage or salary by the Association.

51. Any contracts of employment that may become necessary, will be made by Trustees, and will state that the Trustees are the employers on behalf of the Association for the time being.

52. The Secretary may enter contracts as agent for the Members provided that no such contract involves property or money beyond a value agreed by the Executive Committee.

53. All other contracts between the Association and any other persons are made by the Trustees as agents for the members unless the Executive Committee instead authorises any one or more of the Officers or other members of the Executive Committee to enter a contract as agent for the members.

Indemnities and Limitation of Liability

54. Full indemnity out of the Association funds is given to:

a. Trustees against all payments and other liabilities properly incurred by them as Trustees;

b. Officers and other members of the Executive Committee against all payments and other liabilities properly incurred by them in the exercise of their duties or powers for the Association;

c. Every Trustee, Officer, or other member entering any contract on behalf of the members against all payments and other liabilities incurred by them in connection with that contract.

55. The liability of Trustees, Officers or other members entering any contract for the Association and the liability of any members on whose behalf the contract is made is limited to the assets of the Association.

56. The limit of each members indemnity given to Trustees, Officers, or other members in any calendar year in relation to any contracts entered by them for the Association is a sum equal to one year's membership subscription.

Legal Proceedings

57. No Trustees, Officers or members shall be bound to bring or defend any actual or prospective claim or proceedings or incur any actual or prospective liability for legal costs (including any legal costs that may be payable to another party) unless they are first satisfied that they shall be sufficiently indemnified or otherwise protected against having to pay such costs and any other judgment against them (except as to the extent of one year's membership subscription) in one or more of the following ways:

a. indemnity out of the Association's assets;

b. personal indemnities from some or all of the members;

c. legal expenses insurance;

d. non-payment of sums due to the Association.

58. On a member being given a written notice by post or by email of demand by the Secretary for payment of any sum already due from that member to the Association, failure to pay that sum in full within 14 days (or such longer period as may be specified in the notice) is a serious breach of the Rules which may be disciplined in accordance with these Rules save to the extent that there will be no appeal from a decision of the Executive Committee unless the Executive Committee decides that there are special circumstances making it fair for the member to be able to appeal to an Appeal Committee.

59. Generally, in the first instances, any "legal" matters will be dealt with or considered to be dealt with in an Equitable Jurisdiction, using a Private Administrative Process.

Borrowing and Charges

60. The Executive Committee may borrow money if authorised by a resolution of the members in general meeting and on the terms authorised in that resolution.

61. The Trustees shall make such dispositions of Association property and enter into such agreements as the Executive Committee directs for the giving of security for such borrowing.

62. All members whether or not voting on such resolution, and all members joining the Association after the passing of such resolution are to be taken to have assented to the resolution as if they had voted in favour.

Amendment of the Rules

63. These Rules may be amended by a resolution in a General Meeting.

Dissolution

64. The Association may be dissolved by a resolution passed at a General Meeting.

65. The resolution takes effect immediately unless it expressly states that it is to take effect on a specified date not more than 4 weeks later.

66. As soon as the resolution takes effect the Executive Committee must pay or otherwise settle all debts and other liabilities of the Association and divide the remaining Association property among the members equally. For these purposes the Executive Committee may decide on the sale or other realisation of Association property as it thinks fit.

Headings & Other Matters

67. The headings to these Rules are for ease of reference only and are not to be taken into account in their interpretation.

68. Everything that is communicated to the association's members, whether in writing or verbally, is done so in plain and simple English language with plain and simple accounting.

Annex 1

Disciplinary & Grievance Committee

1. Any member who is in serious or persistent breach of the Rules or who otherwise acts in a way which in the opinion of the Executive Committee is seriously or persistently inappropriate for a member of the Association may be required by the Executive Committee to attend for a hearing before it to explain his or her conduct.

2. Any member who has a serious concern or grievance relating to a breach of the Rules or the conduct of another member, that acts contrary to the Rules and/or the ethos and/or the objectives of the Association may be required by the Executive Committee to attend for a hearing before it to present the concerns and/or grievances to be dealt with.

3. The Secretary will notify the member in writing at least 14 days before the hearing of:

    (i) the date, time, and place of the hearing.

    (ii) the conduct alleged to:

        a. be a serious or persistent breach of the Rules, specifying which rule or rules; or
        b. be seriously or persistently inappropriate for a member of the Association; or

    (iii) the grievances that allege to:

        a. be a serious or persistent breach of the Rules, Ethos and / or Association objectives, specifying which rule or rules; or
        b. be seriously or persistently inappropriate for a member of the Association

    (iv) the available penalty or penalties, or correct course of action required.

4. For disciplinary, the member may respond in writing to the Executive Committee and will also in any case be given a fair opportunity at the oral hearing to refute, explain or excuse his conduct and to say why he or she should not be penalised or what penalty is appropriate for any proven allegation.

5. For grievances, the member may put forward in writing to the Executive Committee all evidence and witness statements for the Executive Committee to consider. The matter will be dealt with in a fair and transparent manner.

6. The procedure to be adopted for the oral hearing will be entirely at the discretion of the Executive Committee.

7. For Disciplinary, the member does not have any right to be represented at the oral hearing (by a lawyer or otherwise) but it will be at the discretion of the Executive Committee as to whether the member is allowed to have such representation.

8. There will be no oral hearing in any matter if either:

    i) the member waives his or her right to an oral hearing or

    ii) the Executive Committee resolves, and writes to the member stating, that it is not considering suspension or expulsion and that consequently in the circumstances an oral hearing is not proportionate.

9. If the Executive Committee finds any allegation to be proven on the facts it may:

    i) impose a fine of not more than £50;

    ii) suspend the member from some or all rights and/or benefits of membership for a period or periods determined by the Executive Committee, with or without conditions; or

    iii) expel the member with immediate effect.

10. The decision as to whether any allegation is established, and the appropriate penalty must be made and notified to the member on the day the hearing is concluded or the following day. The decision must also be made known to the other members by noticeboard or newsletter within a reasonable time following the decision.

Appeal Committee

11. A member who is expelled or suspended from any rights or benefits of membership for a period of longer than 1 month has the right to appeal against the decision by written notice to the Secretary within 14 days of receiving the decision of the Executive Committee. The notice must state the reasons why the decision should be set aside or varied, either on the finding of proof of any allegation or the penalty or both. There is no right of appeal where any other action has been taken.

12. The Appeal Committee will be constituted of 3 members appointed by the Executive Committee including at least one person who sits on the Executive Committee.

13. The Secretary will notify the member in writing at least 14 days before the oral hearing stating the date, time, and place at which the hearing will be conducted by the Appeal Committee. The member will be given a fair opportunity at the oral hearing to explain why the Disciplinary Committee decision should be set aside or varied.

14. The procedure to be adopted for the oral hearing will be entirely at the discretion of the Appeal Committee.

15. The member does not have any right to be represented at the oral hearing (by a lawyer or otherwise) but it will be at the discretion of the Appeal Committee as to whether the member is allowed to have such representation.

16. The Appeal Committee may set aside the decision of the Disciplinary Committee if it is satisfied that the decision was unreasonable or otherwise unfair, or if the proceedings leading to the decision were either unreasonable, unfair, or prejudicial to the member. The Appeal Committee must not consider new evidence which was not put before the Disciplinary Committee unless it is satisfied that there are good reasons why that evidence was not put before the Disciplinary Committee and for allowing the new evidence to be considered.

17. If the Appeal Committee does set aside or vary the decision of the Disciplinary Committee, it may:

    i) impose a fine of not more than £50;

    ii) suspend the member from some or all rights and/or benefits of membership for a period or periods determined by the Executive Committee, with or without conditions; or

    iii) expel the member with immediate effect.

18. The decision of the Appeal Committee must be made and notified to the member on the day the hearing is concluded or the following day. The decision must also be made known to the other members by noticeboard or newsletter within a reasonable time following the decision.

19. There is no further appeal to a decision of the Appeal Committee.

Annex 3

Empower the People – Ethos

ETHOS: EQUITY

This is at the heart of everything we do. Equity measures the conscience and weighs one's heart. We do all things with the greatest of love because we are the light.

7 CORE VALUES

1. **Love**: it is the highest command, it is action, resonance, frequency
2. **Honesty & Integrity:** always seek truth, remain neutral, create trust
3. **Humility:** the meek shall inherit the earth, recognising mistakes, saying sorry and correcting our ways, recognising we are all in service to each other
4. **Mission Centred:** having a sacrificial heart, willing to go the distance, knowing there is a purpose, taking a stand for what is right and true.
5. **Lead By Example:** be the change you wish to see, the Good Shepherd and the Lost Sheep, it's not what we say but what we do that matters.
6. **Disciplined:** mind, body; spirit, exercising self-control, staying focussed on our aims
7. **Generosity:** in spirit, be merciful, it is better to give than to receive, prudence and priorities.

Subject: Vote of "no confidence"

Dear ETP Member

We are writing to you privately, following the recent SGM meeting on 3 August, and wish to thank you for your participation and for being present.

At the meeting, we noted that you gave a vote of no confidence in us, as your trustees, and we therefore thought it was important for us to reach out to you individually to offer the option to be refunded for any work incomplete, and/or to leave the membership.

We appreciate that recent events have been traumatic and that the whole debacle must have come as a huge shock - we are sincerely sorry for the way in which it may have affected you and your perception of etp. Of course, etp will look/feel different to how we started out, but we will get through this difficult patch and come out stronger for it. We hope we've been able to provide you with these reassurances over the past few weeks.

If we haven't, whilst we never want to lose any of our members (we want you all to stay), we really do not wish for anyone to feel "tied in" to something they have no confidence in, or the team that is in place to deliver what we promised we would deliver. The scriptures say: "do not be double-minded" and "let your yes be yes and your no be no" - so that is all we ask – and the very reason why we wanted to write with this offer as any doubt or negativity cannot be taken into our future. We need to be confident that we have our members full backing and it would not be right for etp to retain any members that are no longer aligned to us or who may create conflicts of interest within our membership.

So, I guess this is just to offer the choice/option to be reimbursed/leave, rather than feel beholden to etp, if this were something that you would prefer. There would be no hard feelings; we recognise that it is what it is, and we just want to move on. Hopefully with your full support.
Please carefully consider the above email and let us know whether you wish to continue/discontinue with an etp membership by 5pm Friday 19 August. If we do not hear from you by then, we will assume that you no longer wish to be an active member and we will suspend your account until you confirm either way.

Thank you for your patience and understanding.
Love

Dear Krzysztof

Thank you for your email - the contents of which have been noted.

Please forgive me for writing to you from the youandyourcash email address - alas I lack technical abilities and have experienced issues setting up my empowerthepeople.earth email address - so kindly consider that this email has come from me, in my capacity as Chair, for EtP.

Would you kindly explain why you wish to stay with EtP?

How do you feel you have demonstrated equity within the PMA?

Given you have acquired no benefits/privileges, and given your expressed views at to the trustees and direction of EtP - what is your intention here?

Kindly also confirm, on your honour, that you have not engaged with Matt or Trina and or MFS since receiving the email below., and or that you have not already expressed a lack of confidence in the trustees appointed at the Extra-Ordinary/Emergency/Special General Meeting.

In light of the fact that you voted "no" - how can you possibly claim to have confidence in our collective appointments? kindly explain factually and in detail.

For that matter - perhaps you would kindly explain, factually and in detail why you would wish to be a member of something you so clearly oppose.

In any event - be aware that we have the power to remove anyone deemed to pose a threat to the integrity of the PMA.

Whilst we consider your response - it is unlikely to alter the decision made.

We hold factual information about your conduct which throws into question your intentions. And we simply will not risk the integrity of the site - nor will I risk the integrity of information/processes which YAYC will be rolling out via EtP

If you wish to instigate legal or lawful proceedings to challenge the decision - kindly do so with service via this address:

Empower the People

You know what you've done - and so do we!

If you wish to embarrass yourself in front of peers and show yourself for the inequitable and unconscionable man that you are - bring it on.

Otherwise, your presence within our membership is not wanted or needed.

Friendly Warning but a Warning nevertheless:

If I hear of any "shit stirring" from you - publicly or otherwise - I will do unto you as you have done unto me/us. In the words of Emilio Estevez (Billy the Kid) from the film Young Guns: "I'll make you famous" and then I'll sue your arse!

Choose your next move carefully - shit stirring can lead to a very expensive lesson "in" / "on" court

Have a great day

Dear Simone,

I refer to your email dated the 16th of August, in which you asked me whether I wanted to remain a member of EtP, to which I responded in my email on the 18th of August that yes, I did and that I had noticed, upon checking, that my account had already been suspended.

I also refer to the email received from Simon Goldberg, in response to my email to you that same day, from his youandyourcash email address, due to the fact, he says, that he lacks technical abilities and has experienced issues setting up his empowerthepeople.earth email address. Both you and Dave are copied in on his email, so you are both aware of its contents and I presume the email has been written with both your and Dave's full consent, but please confirm. If it was, then why was it necessary to use an email address outside of the EtP secure server in response to a reply I sent to you?

In your email dated the 16th of August, you, I presume in your capacity as Trustees (?), state that my vote at the meeting held on the 3rd of August was a vote of 'no confidence'. To clarify, it was a yes or no vote for Trustees presented to us only at the time of the meeting, a SGM meeting called at short notice – I believe 11 days, with no agenda or resolutions presented to the members in advance of the meeting and with no real chance to ask questions. The meeting itself was highly charged with emotions and prior to the vote, we were told that it was to be an anonymous vote. In addition, members who were not present at the meeting, never were provided with the opportunity to vote for any of the resolutions presented to us at this SGM.

In believing that the vote had been anonymous, I was rather surprised to have received your email with the question regarding the membership in the first place, but the reason for responding that I wanted to remain as a member, is that like most members, I have not had the chance to get to know the new, and as you mentioned at the SGM, temporary Trustees (?) and I was hoping that over the coming weeks, I would get the chance to do so. There have been some quite substantial changes in the organisation and as such it would naturally take some time for things to settle down and for the association to regain its strength.

I received an email asking me whether I wanted to remain a member or not and when I responded to you, that yes, I did, I receive this email from Simon in his capacity as EtP Chair, from his own business email, as a response.

I am now replying to you, in your capacity as Senior Trustee/ Settlor and Grantor of the Empower the People PMA, the original Trustee as well as the party executing my membership agreement. At the SGM you reiterated the core values of EtP, which can be found in the Rules and Constitution of Empower the People. It also reads that the Ethos of Equity is at the heart of everything you do, as equity measures the conscience and weighs one's heart. We do all things with the present of love, because we are the light.

In light of the email response I received from Simon, I would like to ask you personally,

whether you Simone stand behind these principles still and whether this is the organisation you are aiming to rebuilt? As this ethos is why I joint EtP as a member.

Best regards
Krzysztof

Your conduct is/was unconscionable and is in violation of your membership agreement, whether you agreed with my email or not.

What else have you been forwarding and sharing with Trina Deacon?

Do you consider this to be in line with etps's ethos and core values?

Your questions regarding my email are too late. You have dishonoured yourself and are proven to be untrustworthy.

We thank you for the time you spent with us, but we need to move on. We do not believe we can do that with people like you within our membership and we will do everything within our power to protect etp and its honourable and equitable members.

Enjoy your MFS-PMA membership. I am certain it will be exactly the right type of membership for you.

Please do not email us again, the final decision to remove you has been made and this matter is now closed.

EXHIBIT 10

From page 88 from the book, The Science of Survival (link in the affidavit):

At 1.1, we have lying, to avoid real communication. It takes the form of pretended agreement, flattery, or verbal appeasement, or simply a false picture of the person's feelings and ideas, a false facade, an artificial personality. Here is the level of covert hostility, the most dangerous and wicked level on the tone scale. Here is the person who smiles while he inserts a knife blade between your vertebrae. Here is the person who tells you he has stood up for you, when actually he has practically destroyed your reputation. Here is the insincere flatterer who yet awaits only a moment of unguardedness to destroy. The conversation of this level is filled with small barbs which are immediately afterwards justified as intended compliments. Talking with such a person is the maddening procedure of boxing with a shadow: one realizes that something is wrong, but the guardedness of a 1.1 will not admit anything wrong, even as, all the while, he does his best to upset and wreak havoc. This is the level of the pervert, the hypocrite, the turncoat. This is the level of the subversive. From such a person one should never expect an outright frontal attack; the attack will come when one is absent, when one's back is turned, or when one sleeps. Any luckless person married to a 1.1 is, literally speaking, in danger of his life and sanity; for such a person is incapable of any real affection; such a person is so introverted that any demonstrated affection is a hectic sham. Such a person will opportunistically take any avenue which leads to his own security and will leave in the lurch anyone he has pretended to call his friend. A 1.1 is the most dangerously insane person in society, and is likely to cause the most damage. Because of the covert nature of this insanity, it is completely beside the point whether such a person is pronounced insane by any agency. On this level there is no concept of honour, decency or ethics; there is only desperate, death-bent thought of self and of damage to others. Society can handle the angry man ; it knows what to expect from him. Society can handle the apathy case; his insanity is obvious. But the 1.1 is a skulking coward who yet contains enough perfidious energy to strike back, but not enough courage ever to give warning. Such people should be taken from the society as rapidly as possible and uniformly institutionalized; for here is the level of the contagion of immorality, and the destruction of ethics; here is the fodder which secret police organizations use for their filthy operations. One of the most effective measures of security that a nation threatened by war could take would be rounding up and placing in a cantonment, away from society, any 1.1 individual who might be connected with government, the military, or essential industry; since here are people who, regardless of any record of their family's loyalty, are potential traitors, the very mode of operation of their insanity being betrayal. In this level is the slime of society, the sex criminals, the political subversives, the people whose apparently rational activities are yet but the devious writhings of secret hate.

A 1.1 can be accurately spotted by his conversation; since he seeks only to enturbulate those around him, to upset them by his conversation, to destroy them without their ever being aware of his purpose. He listens only to data which will serve him in his enturbulations. Here is the gossip, here is the unfaithful wife, here is the card cheat; here is the most undesirable stratum of any social order. No social order which desires to survive dares overlook its stratum of 1.1's. No social order will survive which does not remove these people from its midst.

The 1.1 is so low on the tone scale and yet so active mentally, as a rule, that he is very difficult to process. The longest and most arduous course of therapy may still leave the auditor baffled by a mind which is so full of circuits that no real desire for improvement on the part of the pre-clear can make itself felt. The auditor may feel that only an offer of an obvious present-time advantage, like being let out of confinement, would tempt this pre-clear into genuine cooperation. The auditor may feel that this case is just not salvageable. But if, in the

case, the auditor can manage to remove some of the circuits or destimulate them he may be able to make progress. It takes a very clever Dianetician to do anything with a chronic, computational 1.1.

From page 276:

When one comes down to the 1.1, a great deal of care must be used because of the tremendous amount of entheta which exists on the case in proportion to the free theta. A 1.1 may have enough theta endowment originally to want to be processed. His desire to be processed, however, is very tentative and he is intensely critical of his auditor. He is afraid, and with good reason, for he has so little free theta left in comparison to the entheta on his case that bad auditing can bring about a much worsened condition. The 1.1 may not, however, be interested in processing and may consider himself in good condition, despite a very bad record in dealing with life. He is, quite commonly, chronically ill from one somatic or another. He may be diffident about his food. What free theta he has left is in such combat with the entheta, that he is continually on a border line. The auditor must recognize this. The auditor must recognize as well that a 1.1 can be insulting, can be sullen, can be thoroughly unwilling to be processed, and can be extremely trying. The patience of an auditor is easily exhausted when dealing with a 1.1, for the 1.1 may lie down on the couch and knowingly run completely imaginary incidents, reporting somatics and perceptics which he does not have. He may manufacture for the auditor an entire past life. Further, he may unknowingly advance data which is wrong. He may consider, for instance, and believe that he is telling the truth, that he was beaten a thousand times by his father, whereas his father laid hands on him but twice in his whole life. Or he may believe that he was treated royally by his parents, when actually they were extremely non-survival in their attitude toward him. The auditor must remember that in both the 1.5 and the 1.1, truth is not regarded as a very valuable commodity and is hard for the pre-clear to contact. **Although the 1.1 may continually advance protests and evidences as to his honesty and open-heartedness, the auditor is dealing with a level where trickery is automatic.** The auditor may actually succeed at this level in turning off chronic somatics, such as a migraine headache or ulcers, without decreasing the turbulence of the case. He has, evidently, merely turned an enMEST manifestation into an entheta manifestation, so that although the chronic somatic no longer troubles the 1.1 as physical pain, it troubles him exceedingly as mental aberration. Transfer of one somatic to another, or transfer of physical aberration to mental aberration can be expected to result if the auditor mistakes the pre-clear's level on the tone scale and attempts to use methods of processing that are above the 1.1's level. In a wide-open case, the auditor can be completely fooled, and can go on running the case with heavy methods ad infinitum (until the pre-clear tires of processing and refuses it), more and more enturbulating the case, unless he pays careful attention to the pre-clear's behaviour in locating the pre-clear on the tone scale chart.

NOTICE OF UPDATE TO TERMS OF SERVICE

for the above referenced contract

Since slavery has been abolished and one does not work for free, unless one volunteers to do so, which the Office of Trustee and this vessel does not, the following fees and stipulations are for services rendered to, and orders fulfilled for, His Majesty King Charles III via his government and policy enforcement agents in various private courts and county, national, commonwealth and other jurisdictions around the world. All services must be accompanied by a duly executed Liability Waiver found on the last page of these Terms of Service:

Terms of Service

Introduction

1. The vessel known as KRZYSZTOF ANDRZEJ SAGAJLLO, K A SAGAJLLO, Krzysztof Andrzej SAGAJLLO, Krzysztof Sagajllo, Krzysztof SAGAJLLO, KRZYSZTOF SAGAJLLO, K SAGAJLLO, :Krzysztof: Sagajllo and any derivation thereof will hereinafter be known as KAS in these Terms of Service for simplicity.

2. The Office of Private Trustee (KA) is the pimp for the vessel, KAS.

3. Slavery and involuntary servitude have been abolished as per the Universal Declaration of Human Rights - Article 4 and the International Covenant on Civil and Political Rights – Article 8 §1 & §2, unless one volunteers, which the vessel, KAS, and the Office of Private Trustee (KA) certainly do not. Therefore, any performance requirements of the vessel from any 'government' agency or 'government' agent(s) must be paid for up front. See **fees** below.

4. The Universal Declaration of Human Rights was adopted by the General Assembly of the UN as UN Resolution A/RES/217(III)[A] on the 10th of December 1948. The UNITED KINGDOM voted in favour. Though this document had a moral obligation but lacked legal standing, the International Covenant on Civil and Political Rights came into force in 1976 giving legal status to most of the Declaration. See **Self Determination** below.

Contract #: FEDEX 779702133411

5. 'The UNITED KINGDOM' is a LTD COMPANY (see: https://find-and-update.company-information.service.gov.uk/company/03778332). Any form of civilian government has been usurped.

6. All codes and regulations are nothing more than corporate rules and policies and only apply to those that volunteer to be bound by them. The Office of Private Trustee (KA) and the vessel, KAS, do *not* volunteer to be bound by them. See **Self Determination** below.

7. Since the 'UNITED KINGDOM' is a LIMITED COMPANY there is no longer Sovereign law extant in the UNITED KINGDOM and no Sovereign King to make the law and enforce it.

8. The Crown is the CROWN CORPORATION not the King of England.

Self Determination

9. The international Covenant on Civil and Political Rights was ratified by the UNITED KINGDOM on the 20th May 1976 (see: https://tbinternet.ohchr.org/_layouts/15/TreatyBodyExternal/Treaty.aspx?Treaty=CCPR).

10. Article 1 §1 states: 'All peoples have the right of self-determination. By virtue of that right they freely determine their political status and freely pursue their economic, social and cultural development.'

11. Article 22 - §1 states: Everyone shall have the right to freedom of association with others, including the right to form and join trade unions for the protection of his/her interests.

12. The Office of Private Trustee (KA) has withdrawn the vessel, KAS, from participating in and being a member of the corporate, fake, corrupt entity promoting itself to be the United Kingdom civilian authority, which it is not.

Interactions with corporate 'government' and subjects of the corporate 'government'

13. Politicians are loath to give up power as their hidden puppet masters (i.e., Klaus Schwab of the World Economic Forum and others like George Soros) instruct them what to do. Due to this there may be interactions between the vessel, KAS, and corporate 'government' agents, policy enforcement officers (police/enforcement agents/bailiffs) and subjects (the public). As there is no longer any valid Sovereign law in the land currently known to the general public as the UNITED KINGDOM, the vessel, KAS, elects to self-govern and maintain its lawful right to liberty and the right to associate with others of like mind in any way it sees fit. This will include the right to travel freely upon the highways in its own private conveyance without any impediment.

Fees - Introduction

14. Due to the vessel, KAS, travelling in its private conveyance in its exercise of liberty there may be interactions from time to time with those in the policy enforcement business (police) who have no understanding of the fact that the corporation masquerading as the 'legitimate' government of the UNITED KINGDOM has no more lawful authority and will continue to treat the vessel as a purported criminal 'breaking' laws that have no force or effect at Law. Since the system that we all live in is now a system of contracts, with the CROWN CORPORATION'S *sole task* being to make sure that the performance of any contract is met, the following fees must be paid before any request from any policy enforcement officer (police), government

Contract #: FEDEX 779702133411

bureaucrat/officer and/or judicial agent or subject can be fulfilled. Most fees to be paid up front (indicated by a *).

Fees - Paperwork

15. For research and legal document drafting to deal with any 'government/judicial' matter - £50,000 (fifty thousand pounds sterling) per hour with a minimum of 3 (three) hours.

Fees - Transportation by 'government' agents*

16. Transportation to be provided to and from any judicial/government venue(s) by black 1989 Jaguar Sovereign XJ12 stretch limousine if kidnapped/arrested/forced into compliance against the vessel's own will or consent.

Fees - Court Auditions/Appearances*

17. For every audition or appearance before a man or woman calling themselves a judge, magistrate or justice of the peace - £1,000,000 (one million pounds sterling) per instance.

Fees - Mental Evaluation*

18. If forced, coerced, or tricked into attending an audition with a 'psychiatrist', or other mental health practitioner(s) - £6,000,000 (six million pounds sterling). No exceptions. **NOTE:** It has been proven by the Citizens Commission on Human Rights (http://cchr.org) that psychiatry is not a valid science. Professor Emeritus of Psychiatry Thomas Szasz (deceased), a founding alumnus of CCHR, concurred. Psychiatry is used as a tool by most governments to control, suppress and destroy people.

Fees - Interactions with 'government' and 'judiciary'*

19. An hourly rate of £50,000 (fifty thousand pounds sterling) with a minimum of 3 (three) hours. This starts when the vessel is placed in the transportation vehicle (point 16).

20. If overnight accommodation is to be provided, a 4-star hotel room with a king-size bed, a toilet and bathroom with bath and shower, *no television*, a phone with national and international calling, 100 legal note pads and 20 boxes of blue gel ink pens. Otherwise, £100,000 (one hundred thousand pounds sterling) per day.

21. 'Absent from home' - £600,000 (six hundred thousand Pounds sterling) per day if within Buckinghamshire in addition to point 20.

22. 'Absent from home' - £1,000,000 (one million Pounds sterling) per day if without Buckinghamshire in addition to point 20.

23. Involuntary confinement for any non-victimless alleged 'crime' (the only crimes with victims are those of bodily harm and murder) - £10,000,000 (ten million pounds sterling) per day in addition to point 20.

24. Arrest/kidnapping of vessel, KAS, by any corporate 'government' (and non-government - i.e., mercenaries) agents/police officers of any jurisdiction - £10,000,000 (ten million pounds sterling).

25. Arrest/kidnapping of vessel, KAS, by UK police - £1,000,000 (one million pounds sterling).

Contract #: FEDEX 779702133411

26. Engagement of vessel, KAS, by any 'government' agents or officers of law enforcement/military at the residence of vessel or any other private or public venue - £10,000 (ten thousand Pounds sterling) **per minute** until the end of engagement. The first 7 (seven) minutes of any engagement *may* be waived by the vessel.

Fees - Travel on highways and byways

27. Filling out any paperwork to obtain a 'driving license' - £10,000,000 (ten million pounds) which is separate to the following fee (28). This supersedes point 15 above.

28. Having to obtain a 'driving license' - £2,000,000 (two million pounds).

29. Having to obtain 'car insurance' - £5,000,000 (five million pounds).

30. Having to register a private conveyance with the DEPARTMENT OF MOTOR VEHICLES (DVLA) - £5,000,000 (five million pounds)

31. Requirement of using DVLA issued registration plates - £10,000,000 (ten million pounds)

32. Renaming a Private Conveyance a 'vehicle', 'motor vehicle', 'motorized vehicle' or any other mixture of words in an attempt to bring the Private Conveyance under the supposed jurisdiction of the DVLA - £20,000,000 (twenty million pounds).

33. Receiving presentments from the DVLA - £100,000 (one hundred thousand pounds) per received presentment apart from receiving a CERTIFICATE OF FINANCIAL RESPONSIBILITY if applied for.

34. Responding to any presentments received from the DVLA - £50,000 (fifty thousand pounds).

Fees – Removal/Theft/Towing of private property

35. Any private property, including any privately owned conveyance(s), that is/are removed or towed from the private residence of vessel - £2,000,000 (two million pounds sterling) per item.

36. Towing of privately owned vehicle when accosted by corporate 'government' agents/corporate policy enforcement officers on the highways and byways of the land - £5,000,000 (five million pounds sterling).

Fees - Taxes

37. Any money exchanged for sweat equity/hard work is not taxable. Only positive returns on investments are a taxable event. Any attempt to steal monies from the vessel, KAS, under the guise of taxes - £1,000,000 per instance.

38. Filling in tax returns - £20,000,000 per instance.

Fees – Vaccinations, Masks and unproven medical interventions*

39. Article 7 of the International Covenant on Civil and Political Rights states: 'No one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment. In particular, no one shall be subjected without his free consent to medical or scientific experimentation.'

Contract #: FEDEX 779702133411

40. The Nuremberg Code's ten principles regarding medical experiments on human subjects had this principle as number 1: 'Voluntary and informed consent - The voluntary consent of the human subject is absolutely essential.'

41. When it comes to any current vaccines, mRNA vaccines and especially the vaccine for COVID-19 the body of evidence is insurmountable that shows that this vaccine is deadly (all vaccines are ineffective and are designed to cause harm, not prevent death) and has been specifically designed to maim or kill people. Even the FDA tried to cover it up. See US Food & Drug Administration channel on YouTube: https://www.youtube.com/watch?v=1XTiL9rUpkg or if taken down http://67.211.223.35/FDA-knew.php.

42. The World Medical Association's 'Declaration of Helsinki' section 37 states that informed consent **must** be obtained in order to use an unproven intervention. See http://wma.net/policies-post/wma-declaration-of-helsinki-ethical-principles-for-medical-research-involving-human-subjects.

43. This CDC report – Non-pharmaceutical Measures for Pandemic Influenza in Non-healthcare Settings – Personal Protective and Environmental Measures (http://wwwnc.cdc.gov/eid/article/26/5/19-0994_article) states that over a 72 (seventy two) year period '…evidence …..did not support a substantial effect on transmission of laboratory-confirmed influenza'. Furthermore, in the section 'Respiratory Etiquette' it stated: 'Respiratory etiquette is often listed as a preventative measure for respiratory infections. However, there is a lack of scientific evidence to support this measure'.

44. Dr. Vernon Coleman MB ChB DSc FRSA, and Sunday Times Bestselling author has written up over 100 proof points that mask wearing is ineffective and even dangerous. He also stated that there are no studies that found for mask efficacy. This 73-page document can be found here: http://67.211.223.35/pdfs/E20-2020_No-studies-found-for-mask-efficacy.pdf

45. World-renowned neurologist Dr. Margareta Griesz-Brisson warned against the wearing of masks and stated: 'Masks cause oxygen deprivation and permanent brain damage, especially in the developing brains of children'. This document where she states this can be found here: http://67.211.223.35/pdfs/E19-2020_Masks-cause-permanent-brain-damage.pdf

46. Due to the above points, any 'government' agency, 'government' agent or other enforcement officer attempting to forcefully administer a vaccine or mask mandate to the vessel, KAS - **£1,000,000,000 (one billion Pounds sterling)**.

47. Any attempt to enforce any of the provisions contained within the Coronavirus Act 2020 - £10,000,000 (ten million pounds sterling) per attempt.

Fees – Adulteration of food and medicine with vaccines, mRNA technology, graphene and nanoparticles or nanobots

48. In 'The Law of Nations or the Principles of Natural Law' (1758 - Emerich de Vattel), Book 1, § 72, second paragraph, 1st and 2nd sentences, it states the following:

> A wise conductor of the state will find in the objects of civil society the general rule and indication of his duties. The society is established with the view of procuring, to those who are its members, the necessaries, conveniences, and even pleasures of life, and, in general, every thing necessary to their happiness, — of enabling each individual peaceably

Contract #: FEDEX 779702133411

to enjoy his own property, and to obtain justice with safety and certainty, — **and, finally, of defending themselves in a body against all external violence**. [Emphasis added].

49. The UNITED KINGDOM LTD, as the de facto 'authority' within this land, has failed in its duty to fulfill its obligations as set forth above. Therefore any attempt to allow foods and medicines, including but not limited to dental anaesthetics, to be adultered, injected or genetically modified with vaccines or vaccine delivery systems, mRNA technology, graphene particles, nanoparticles and nanobots, due to the pressure and evil intentions of people within the WEF, the UN, the IMF and other non-elected bodies, will incur a fee of £25,000,000 (twenty-five million pounds). This fee will also apply to grocery stores, food distribution companies, food manufacturing companies, pharmaceutical companies, pharmacies and hospitals.

Fees – Vaccine delivery systems (overt or covert)

50. Any attempt at using various overt or covert vaccine delivery systems, for example mosquitoes or aerosol spraying from aircraft or other aerial vehicles, will incur a fee of £25,000,000 (twenty-five million pounds).

Fees - Biometrics*

51. Forced/coerced/required fingerprinting - £10,000,000 (ten million pounds sterling) per instance.

52. Forced/coerced/required iris/eye scanning - £10,000,000 (ten million pounds sterling) per instance.

53. Forced/coerced/required facial recognition scanning - £10,000,000 (ten million pounds sterling) per instance.

54. Forced/coerced/required DNA testing - £10,000,000 (ten million pounds sterling) per instance.

55. Forced/coerced/required drawing of blood/blood testing - £10,000,000 (ten million pounds sterling) per instance.

56. All biometric information to be deleted from any electronic storage device or removed and destroyed from any physical location otherwise - £10,000,000 (ten million pounds sterling) per extant record (but not including passport or other similar records).

57. Any other biometric testing or requirement - £10,000,000 (ten million pounds sterling) per instance.

Fees – Mobile devices/Smart phones/Electronic tags/Computer or Electronic Implants

58. Any requirement by any corporate 'government' agency/department to have a mobile or smart phone/device or electronic tag or any form of electrical/electronic/computer implant for track and trace, banking, grocery shopping, public transportation use, entering buildings, etc - £10,000,000 (ten million pounds sterling).

Fees – Artificial Intelligence (AI)

59. The Office of Private Trustee (KA) forbids the vessel, KAS, from being integrated or implanted with any form of AI. Any attempt to do so - £1,000,000 (one million pounds sterling) ***per attempt*** *whether overt or covert.*

Contract #: FEDEx 779702133411

Fees – LEZ and ULEZ (Low Emission Zone and Ultra Low Emission Zone)

60. These fees have been recently proven to be illegal. See: https://www.thesun.co.uk/motors/23674896/ulez-expansion-landmark-legal-ruling-unlawful-signage/. As such, now and in the future, any attempts to extract any monies or fines with respect of these will be met with a demand for payment of £1,000,000 (one million pounds sterling) per attempt/enforcement letter/PCN/Notice of Intended Prosecution.

Fees – 15/20/XX minute cities/towns/villages and free passage through them

61. Since these are being implemented via edicts or policies of the World Economic Forum and its (hidden) membership any attempt to collect on a fine or fee for travelling freely through any of these illegally created zones will be met with a demand for payment of £1,000,000 (one million pounds sterling).

Fees – Smart Meters for Utilities and other services

62. The American Academy of Environmental Medicine has stated that Smart Meters have known carcinogenic, neurological, cardiac and pulmonary effects on the human body. See: http://67.211.223.35/pdfs/SmartMeters.pdf . As such any and all attempts to install these in private dwellings require a fee of £1,000,000 (one million pounds sterling) per attempted installation.

Fees – Jury Service

63. An invitation for the vessel, KAS, to become a juror for any trial that requires a jury in any UNITED KINGDOM or Commonwealth jurisdiction requires a fee of £500,000 (five hundred thousand pounds) per day for the vessel's time.
64. An administration fee of £1,000,000 per invitation is to be paid to the Office of Private Trustee.

Fees – Central Bank Digital Currency (CBDC)

65. Digital Currencies issued by governments will have one thing in common – CONTROL. Therefore any attempt to force upon the Office of Private Trustee (KA) and the vessel KAS any form of digital currencies and the use of such to access buildings, 'government' services, government buildings and to pay for food, petrol and other necessities requires a fee of £10,000,000 (ten million pounds).

Fees – Social Credit score implementation

66. A social credit score system is another form of pernicious control from those who are versed in tyranny and has no place in a free and just society. Therefore any attempt to enrol the Office of Private Trustee (KA) and the vessel KAS into any form of social credit score system will incur a fee of £5,000,000 (five million pounds).

Fees – Agenda 2021, 2030, 2050 & any other 2XXX or XXXX under the guise of 'sustainability'

67. These 'Agendas' come from the United Nations (UN) an unelected body which is also a *private* corporation which had its headquarters built upon formerly United States soil that was donated by Nelson Rockefeller, one of the top globalists on the planet of his time, through an option he owned on the land. He donated the land to the UN in December 1946. The UN is the secret mouthpiece and controlling mechanism of all the globalists on the planet and has its own 'agendas' that are contrary to Natural Law and the well being of the Peoples of this planet with the aims of these 'agendas' to grab land and resources, amongst other things, from *all* people under various guises. This is done under the name of 'sustainability' but has *nothing* to do with this so called 'goal' but has everything to do with controlling the resources, wealth and natural

environment of the planet on behalf of these unelected globalist scum. Any attempt to implement these 'agendas' upon the Office of Private Trustee (KA) or the vessel KAS will incur a fee of £5,000,000 (five million pounds).

Fees – Population Control

68. Population control is the Globalist's (wet) dream and is to do with a belief that there are too many people for this planet to sustain. This is a convenient lie promulgated to the people who are stupid enough to believe this, who unfortunately seem to make up over 90% of the planetary population. The total land mass of planet Earth is an average of 149,857,000 km^2 (See: https://hypertextbook.com/facts/2001/DanielChen.shtml . If an individual occupied 2 sq feet the entire global population could fit into the State of Delaware in the US (the actual area is just under 3,000 sq km that the population of 8 billion would take up if all people were adults), which has a land area of 5,047 sq km (See: https://en.wikipedia.org/wiki/List_of_U.S._states_and_territories_by_area). Put another way the human population inhabits 0.004% of the planet's land area. So this idea of 'population control' is nothing more but an attempt to implement policies that are put in place by the globalist slaves; the politicians of each country, to grab the land area and resources of this planet for the globalists' own enjoyment. Therefore any attempts to force the Office of Private Trustee (KA) or the vessel KAS to adhere to any policies, rules, regulations or 'laws' that limit the Office of Private Trustee's or the vessel KAS' enjoyment of the resources of this planet will incur a fee of £15,000,000 (fifteen million pounds) per attempt.

Fees – Climate change/global warming (CC1)**

69. The climate change/global warming hysteria is a con (confidence trick) perpetrated by the WEF/UN/WHO terrorist organizations which are heavily influenced by globalist, criminally minded scum like Klaus Schwab, Bill Gates and George Soros who have their minions pushing their various agendas – those who are associated with them in whatever capacity (politicians – especially Rishi Sunak, company CEOs, YouTube influencers, news organizations, etc).
70. Carbon is a vital part of life and is mandatory for plants and trees to live. Without carbon these living organisms die. In fact MORE carbon emissions are hugely beneficial to **all** living organisms. Therefore any attempt to levy charges that are directly or indirectly linked to this climate change/global warming scam will incur fees of £5,000,000 (five million pounds).

Fees – Pets/animals (CC2)**

71. All animals, including pets like cats and dogs, have a right to life as this is the way that this planet has been set up – a multitude of living things over which we have been given dominion over. This does not mean that we allow or condone the indiscriminate killing of animals, whether pets or livestock like pigs, cows, goats, chickens and horses, in the name of 'reducing carbon emissions'. That is actually a covert attempt at severely limiting everyone's intake of animal protein which to some is a vital part of their diet. Any attempt to limit this vessel's enjoyment of partaking in the eating of meat, including fish, will incur a fee of £10,000,000 (ten million pounds).
72. Any attempt to limit having pets in, or the removal of pets from, a household will incur a fee of £5,000,000 (five million pounds).
73. Any letters or other enforcement actions that demand that pets be killed in the name of 'reducing carbon emissions' will incur a fee of £5,000,000 (five million pounds) in addition to the above point (68).
74. Any attempt to limit or remove any pets from the vessel's environment within a 1 (one) kilometre radius will incur a fee of £1,000,000 per removal/limitation.

75. Any attempt to limit the availability of any types of pets in pet stores or directly from breeders or other sellers will incur a fee of £10,000,000 (ten million pounds).

Fees – Substitution of insects for meat (CC3)**

76. Any attempt to foist insects on this vessel to eat as food either overtly or covertly will incur a fee of £5,000,000 (five million pounds).
77. Any attempt to limit the purchasing or production of meat or fish for food will incur a fee of £10,000,000 (ten million pounds).

Fees – TV License

78. The television has become a propaganda tool of government and spews forth lies and deceit on a daily basis (a classic example is a reporter on the 11th of September 2001 stating that WTC building 7 has collapsed while it is still standing in the background behind her but collapses 20 minutes later, yet was never hit by anything) so that people are covertly programmed to accept certain scenarios or 'narratives' promoted by 'government' to fulfill their own agendas. It is self evident in the word 'Television' as to what its real purpose is – to 'tell a vision'. Even the individual shows are called 'Programs' as in something that is programmed (like a computer – i.e. the brain – the most sophisticated and powerful computer on the planet). Therefore any attempt at collecting TV Licensing fees will incur a fee of £100,000 (one hundred thousand pounds) per instance or attempt.

Fees – Self-governing

79. Laws only have effect with the consent of the governed. Therefore *all* laws are void and do not apply to the Office of Private Trustee (KA) or the vessel KAS as there is no consent that can be proven to exist. There is no contract that can be supplied by the corporate UNITED KINGDOM LTD 'government' which proves any contractual obligation to abide by any rules, regulations or laws that are attempting to be enforced by said UNITED KINGDOM LTD. Therefore *any* attempt to apply any corporate rules, regulations, laws or policies will incur a fee of £10,000,000 (ten million pounds). The Office of Private Trustee (KA) and the vessel KAS abide by the principles of 'do no harm' and 'treat others the way one wants to be treated'.

Fees – Filing Credit Reports

80. HCO POLICY LETTER OF 7 AUGUST 1965

Remimeo
Ethics Hats
Executive Hats

SUPPRESSIVE PERSONS, MAIN CHARACTERISTICS OF

It is interesting in the detection of Suppressive Persons that they use "policy" to prevent purpose.

In one org which went into a serious decline a Suppressive Person was in a high position.

Every time org personnel returned from Saint Hill and proposed that the org get going, they were told by this SP that their proposals were "against policy".

Not one of these people, hearing this, ever alerted to a glaring fact. The SP in this case was renowned for never being able to pass a bulletin, tape or policy letter!

So how would that person have known WHAT was against policy for that person NEVER was known to pass a hat check!

So that person's statement that, "it's against policy" was obviously false since the person was incapable of passing hat checks or bulletins and wouldn't ever have known what any policy was for or against anything.

Thus we see one of the characteristics of an SP is:

1. THE NEGATION OF POLICY WITHOUT KNOWING IT AND THE USE OF "POLICY" TO PREVENT SUCCESS IN SCIENTOLOGY IS THE PRIMARY TOOL OF THE SP AGAINST ORGS.

Dissemination is a prime target of the SP.

Magazines ordinarily have half a dozen SPs on their lines. These people write in and complain about ads. If you don't watch it these half dozen become "everybody" and the mag is beaten down into not advertising.

"Soft sell" is another recommendation of the SP.

And "build it quietly" and "get only decent people" are all part of this.

When somebody is demanding *less* reach, that person is an SP.

Therefore we have another characteristic:

2. SPs RECOMMEND INEFFECTIVE DISSEMINATION AND FIND FAULT WITH ANY BEING DONE.

A Suppressive will try to sell off the property or buildings of an org and in one case tried to *give* them away when temporarily in charge.

3. A SUPPRESSIVE WILL TRY TO GET RID OF AN ORG.

Good staff members are a prime target for SPs. In one org where an SP got a foothold 60% of the staff was gotten rid of and the org almost crashed.

They do it by making people too dissatisfied to produce and so make it impossible for the org to earn.

4. AN SP WILL SEEK TO UPSET AND GET RID OF THE BEST STAFF MEMBERS.

Bad news, particularly if false, is the *only* comm line of the SP.

The executive who is getting bad news as a steady diet on his lines has SPs about.

5. ENTHETA IS THE SOLE STOCK IN TRADE OF THE SP.

The triumph an SP feels in not getting rid of things the auditor has tried to ease is quite malevolent.

6. AN SP IS SATISFIED WITH AUDITING ONLY WHEN HE GETS WORSE.

---

7. SPs are happy when their pcs get worse and sad when their pcs get better.

---

8. AN SP IN AN EXAMINER POST WILL ONLY DECLARE RELEASED THE BAD RESULT CASES AND WILL NOT PASS ACTUAL RELEASES BUT WILL ARC BREAK THEM.

---

9. Covert invalidation is the level of an SP's social intercourse.

An SP can only *restimulate* another, he has no power of his own.

10. An SP deals only in restimulation, never easing or erasing.

---

11. The persons around an SP get so restimulated they can't detect the real SP.

The whole rationale of the SP is built on the belief that if anyone got better, the SP would be for it as the others could overcome him then.

He is fighting a battle he once fought and never stopped fighting. He is in an incident. Present time people are mistaken by him for past, long gone enemies.

Therefore he never really knows what he is fighting in present time, so just fights.

12. The SP is sure everyone is against him personally and if others became more powerful they would dispose of him.

The SP usually commits continuing overts. These are hidden.

I have had two or three SPs blow up and shout or snarl at me. When I investigated I found, in these cases, they were committing daily crimes of some magnitude.

13. An SP commits hidden overts continuously.

---

14. Back of a crime you will find SP characteristics.

---

15. Because an SP uses generalities in his speech "everybody" "they", etc., the SP is hard to detect.

SPs have an experiential track that is poor. SPs know how to needle and commit overts and hold others back.

When released, the SP has so little decent background experience that he or she has a very hard time.

16. Releasing an SP does not make a worthwhile person. It only makes a person who can now learn to get along in life.

"A cleared cannibal is a cleared cannibal."

SPs don't get case gains. Sometimes they pretend them. They are held back by their continuing overts. If we were found by them to be decent, their past conduct would swell up and engulf them.

They are in a continued PTP of their fight with Mankind. And they follow the rule that pcs with PTPs get no case gains.

Real SPs comprise about 2½ per cent of the population. By restimulating others they make another 17½ per cent into Potential Trouble Sources. Therefore about 20% of the population is Ethics type.

We must not allow this 20% to prevent the 80% from crossing the bridge.

We are no enemy of the SP. But he can't have friends, can he?

So we handle the SP and his PTSs and carry on with our job.
